

# Linux Rapid Embedded Programming

## **Yocto Project (redirect from Yocto linux)**

for embedded and IoT software that are independent of the underlying architecture of the embedded hardware. The project was announced by the Linux Foundation...

## **Linux kernel**

many of which are called Linux. One such Linux kernel operating system is Android which is used in many mobile and embedded devices. Most of the kernel...

## **Linux Foundation**

The Linux Foundation (LF) is a non-profit organization established in 2000 to support Linux development and open-source software projects. The Linux Foundation...

## **Linux**

management in general. Linux distributions support shell scripts, awk, sed and make. Many programs also have an embedded programming language to support...

## **Embedded system**

system. It is embedded as part of a complete device often including electrical or electronic hardware and mechanical parts. Because an embedded system typically...

## **Coreboot (redirect from Linux BIOS)**

Ryzen Embedded or Intel Atom processor on the car computer, and adopted coreboot as the bootloader.[citation needed] Coreboot typically loads a Linux kernel...

## **Tcl (redirect from Tcl (programming language))**

functional, and procedural styles. It is commonly used embedded into C applications, for rapid prototyping, scripted applications, GUIs, and testing....

## **Scripting language (redirect from Script (computer programming))**

language can be a general-purpose programming language or a domain-specific language for a given environment. When embedded in an application, it may be called...

## **Delphi (software) (redirect from Delphi programming language)**

is a general-purpose programming language and a software product that uses the Delphi dialect of the Object Pascal programming language and provides...

## **Qt (software) (category Application programming interfaces)**

run on various software and hardware platforms such as Linux, Windows, macOS, Android or embedded systems with little or no change in the underlying codebase...

## **Gambas (redirect from Gambas programming language)**

dialect of the BASIC programming language, and an integrated development environment that accompanies it. Designed to run on Linux and other Unix-like...

## **Python (programming language)**

supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming. It is often described...

## **Windows CE (redirect from Windows Embedded Edition)**

known as Windows Embedded CE and Windows Embedded Compact, is a discontinued operating system developed by Microsoft for mobile and embedded devices. It was...

## **LiveCode (redirect from Transcript (programming language))**

cross-platform rapid application development runtime system inspired by HyperCard. It features the LiveCode Script (formerly MetaTalk) programming language...

## **Ring (programming language)**

general-purpose programming language. It can be embedded in C/C++ projects, extended using C/C++ code or used as a standalone language. The supported programming paradigms...

## **Linux adoption**

Linux adoption is the adoption of Linux-based computer operating systems (OSes) by households, nonprofit organizations, businesses, and governments. Android...

## **Android 16 (section Embedded photo picker)**

Google expanded the "Linux Terminal" feature, which was initially introduced in Android 15 QPR2 beta, allowing users to run Linux applications within a...

## **Field-programmability**

An electronic device or embedded system is said to be field-programmable or in-place programmable if its firmware (stored in non-volatile memory, such...

## **Euphoria (programming language)**

Euphoria is a programming language created by Robert Craig of Rapid Deployment Software in Toronto, Ontario, Canada. Initially developed (though not publicly...

## **Caldera Smallfoot (category Embedded Linux distributions)**

the names Smallfoot embedded UNIX and Smallfoot embedded Linux respectively. Smallfoot is also notable in that it was a key Linux product of The SCO Group...
