It's crucial to understand that exploitation isn't necessarily a material act; it can be emotional too. Coercion, psychological abuse, and systemic discrimination are all forms of exploitation that diminish the victim's sense of agency.

One principal example of exploitation is labor exploitation. Millions of individuals worldwide work under terrible circumstances, earning meager wages and without essential rights. Sweatshops, forced labor, and human trafficking are all grim examples of this ubiquitous problem. The global supply chains often conceal the real prices of production, permitting companies to benefit from the exploitation of workers abroad.

The word "Exploited" conjures a range of negative images: a sweatshop teeming with underpaid laborers, a child compelled into labor, a vulnerable adult manipulated for financial gain. many forms of exploitation is crucial. Empowering disadvantaged communities with support and options to avoid exploitation is also vital. Finally, accountable corporations and individuals accountable for their behaviors is essential.
