Dotcom Secrets

Master the science of funnel building to grow your company online with sales funnels in this updated edition from the \$100M entrepreneur and co-founder of the software company ClickFunnels. DotCom Secrets is not just another "how-to" book on internet marketing. This book is not about getting more traffic to your website--yet the secrets you'll learn will help you to get exponentially more traffic than ever before. This book is not about increasing your conversions--yet these secrets will increase your conversions more than any headline tweak or split test you could ever hope to make. Low traffic or low conversion rates are symptoms of a much greater problem that's a little harder to see (that's the bad news), but a lot easier to fix (that's the good news). What most businesses really have is a "funnel" problem. Your funnel is the online process that you take your potential customers through to turn them into actual customers. Everyone has a funnel (even if they don't realize it), and yours is either bringing more customers to you, or repelling them. In this updated edition, Russell Brunson, CEO and co-founder of the multimillion-dollar software company ClickFunnels, reveals his greatest secrets to generating leads and selling products and services after running tens of thousands of his own split tests. Stop repelling potential customers. Implement these processes, funnels, frameworks, and scripts now so you can fix your funnel, turn it into the most profitable member of your team, and grow your company online.

Traffic Secrets

Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the \$100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in

schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.

But a system which has been tried and tested many times over, a system that has worked many times over, in short, a PROVEN system. Simply follow the step-by-step advice of two industry experts who launched many 7 figure sites of their own. They'll walk you through every step of the process, from setting it all up all the way to monetizing it.

Operation Toussaint

An adaptation of the documentary film: The story of the ex-special agent featured in Sound of Freedom and a covert anti-trafficking mission in Haiti. Tim Ballard left his post as a special agent for the US Department of Homeland Security to found Operation Underground Railroad (O.U.R.). Through this organization, Tim and his team plan undercover operations to rescue child sex trafficking victims around the world. To date, they have saved hundreds of children from horrific conditions, which Tim wasn't able to do when bound by government restrictions. In this book incorporating photos and dialogue adapted from the documentary film of the same name, take an inside look at O.U.R., and their mission to end modern-day slavery—as you join Tim and his Special Forces team on a covert mission to Haiti where they bring a ring of sex traffickers who bribed their way out of jail to justice in Operation Toussaint.

If you are currently struggling with getting traffic to your website, or converting that traffic when it shows up, you may think you've got a traffic or conversion problem. In Russell Brunson's experience, after working with thousands of businesses, he has found that's rarely the case. Low traffic and weak conversion numbers are just symptoms of a much greater problem, a problem that's a little harder to see (that's the bad news), but a lot easier to fix (that's the good news). Secrets, Sex, and Spectacle

A leader of a global superpower is betrayed by his mistress, who makes public the sordid details of their secret affair. His wife stands by as he denies the charges. Debates over definitions of moral leadership ensue. Sound familiar? If you guessed Clinton and Lewinsky, try again. This incident involved former Japanese prime minister Sosuke Uno and a geisha. In *Secrets, Sex, and Spectacle*, Mark D. West organizes the seemingly random worlds of Japanese and American scandal—from corporate fraud to baseball cheaters, political corruption to celebrity sexcapades—to explore well-ingrained similarities and contrasts in law and society. In Japan and the United States, legal and organizational rules tell us what kind of behavior is considered scandalous. When Japanese and American scandal stories differ, those rules—rules that define what's public and what's private, rules that protect injuries to dignity and honor, and rules about sex, to name a few—often help explain the differences. In the cases of Clinton and Uno, the rules help explain why the media didn't cover Uno's affair, why Uno's wife apologized on her husband's behalf, and why Uno—and not Clinton—resigned. *Secrets, Sex, and Spectacle* offers a novel approach to viewing the phenomenon of scandal—one that will be applauded by anyone who has obsessed over (or ridiculed) these public episodes.

This book is for everyone who needs to write copy that sells - including copywriters, freelancers, and entrepreneurs. Writing copy that sells without seeming “salesy” can be tough, but is an essential skill. How To Write Copy That Sells supplies specific copywriting techniques for everything from email marketing, web sites, and social media, to traditional media ads and direct mail.

How to Write Copy That Sells

The project that captured a nation's imagination. The instructions were simple, but the results were extraordinary. “You are invited to anonymously contribute a secret to a group art project. Your secret can be a regret, fear, betrayal, desire, confession, or childhood humiliation. Reveal anything -- as long as it is true and you have never shared it with anyone before. Be brief. Be legible. Be creative.” It all began with an idea Frank Warren had for a community art project. He began handing out postcards to strangers and leaving them in public places -- asking people to write down a secret they had never told anyone and mail it to him, anonymously. The response was overwhelming. The secrets were both provocative and profound, and the cards themselves were works of art -- carefully and creatively constructed by hand. Addictively compelling, the cards reveal our deepest fears, desires, regrets, and obsessions. Frank calls them “graphic haiku,” beautiful, elegant, and small in structure but powerfully emotional. As Frank began posting the cards on his website, PostSecret took on a life of its own, becoming much more than a simple art project. It has grown into a global phenomenon, exposing our individual aspirations, fantasies, and frailties -- our common humanity. Every day dozens of postcards still make their way to Frank, with postmarks from around the world, touching on every aspect of human experience. This extraordinary collection brings together the most powerful, personal, and beautifully intimate secrets Frank Warren has received -- and brilliantly illuminates

that human emotions can be unique and universal at the same time.

I'm a HUGE fan of Alison Green's \"Ask a Manager\" column. This book is even better! Everyone Has Something

Most startups fail. But many of those failures are preventable. The Lean Startup is a new approach being adopted across the globe, changing the way companies are built and new products are launched. Eric Ries

defines a startup as an organization dedicated to creating something new under conditions of extreme uncertainty. This is just as true for one person in a garage or a group of seasoned professionals in a Fortune 500 boardroom. What they have in common is a mission to penetrate that fog of uncertainty to discover a successful path to a sustainable business. The Lean Startup approach fosters companies that are both more capital efficient and that leverage human creativity more effectively. Inspired by lessons from lean manufacturing, it relies on “validated learning,” rapid scientific experimentation, as well as a number of counter-intuitive practices that shorten product development cycles, measure actual progress without resorting to vanity metrics, and learn what customers really want. It enables a company to shift directions with agility, altering plans inch by inch, minute by minute. Rather than wasting time creating elaborate business plans, The Lean Startup offers entrepreneurs—in companies of all sizes—a way to test their vision continuously, to adapt and adjust before it’s too late. Ries provides a scientific approach to creating and managing successful startups in a age when companies need to innovate more than ever.

Ask a Manager

This isn't some \"Rah, Rah\" bullshit book that's designed to make you feel good about having a fucked up life. I wrote this book to show those of you out there that are in the struggle, what's possible if you work for it. Nothing in life is free. Everything costs money or time. Allow me to save you both by reading this book. Some of the stories you will read in this book will be hard to believe, but they are true nonetheless. I've replayed many of these scenes and scripts in my mind a thousand times, trying to figure out how in the hell things went down the way they did. At age seven I was adopted by my step dad; at age eight I was put to work by my step dad; at age 17 I dropped out of school; at age 21 I was in prison; at 23 divorced; at 24 I filed for bankruptcy; at 27 I was in federal prison again; at 28 I was divorced a second time; and at 35 divorced a third time. And that's just the 50,000-foot view. This book will explain it all and how it was all part of a plan from the universe to push me out of my comfort zone and into the hands of everyday winners like you. I wrote this book to show those who are oppressed with their past that it doesn't matter if you can develop skills. The timelines may not be exact, so just go with the flow and enjoy the story. It's about the big picture, not a timeline of when shit went down. Look at each chapter as its own individual story. When it happened is not really as important as the fact that it did happen. Join me, as I share my journey and all of the ups and downs it took me on, with you. Oh, and for protection purposes the names of people have been changed. Also, if you're a cop or government entity, this is all entirely fiction so chill.

‘A breakthrough book. Wonderfully applicable to everything in life, and funny as hell.’ Nassim Nicholas Taleb Why is Red Bull so popular – even though everyone hates the taste? Why do countdown boards on platforms take away the pain of train delays? And why do we prefer stripy toothpaste? Discover the alchemy behind original thinking, as TED Talk superstar and Ogilvy advertising legend Rory Sutherland reveals why abandoning logic and casting aside rationality is the best way to solve any problem. In his first book he blends cutting-edge behavioural science, jaw-dropping stories and a touch of branding magic on his mission to turn us all into idea alchemists. He shows how economists, businesses and governments have got it all wrong: we are not rational creatures who make logical decisions based on evidence. Instead, the big problems we face every day, whether as an individual or in society, could very well be solved by thinking less logically. To be brilliant, you have to be irrational.

New York Times Bestseller Named \"22 Essential Cookbooks for Every Kitchen\" by SeriousEats.com

Named \"Best Cookbooks Of 2016\" by Chicago Tribune, BBC, Wired, Epicurious, Leite's Culinaria
Named \"100 Best Cookbooks of All Time\"

by Southern Living Magazine For succulent results every time, nothing is more crucial than understanding the science behind the interaction of food, fire, heat, and smoke. This is the definitive guide to the concepts, methods, equipment, and accessories of barbecue and grilling. The founder and editor of the world's most popular BBQ and grilling website, AmazingRibs.com, "Meathead" Goldwyn applies the latest research to backyard cooking and 118 thoroughly tested recipes. He explains why dry brining is better than wet brining; how marinades really work; why rubs shouldn't have salt in them; how heat and temperature differ; the importance of digital thermometers; why searing doesn't seal in juices; how salt penetrates but spices don't; when charcoal beats gas and when gas beats charcoal; how to calibrate and tune a grill or smoker; how to keep fish from sticking; cooking with logs; the strengths and weaknesses of the new pellet cookers; tricks for rotisserie cooking; why cooking whole animals is a bad idea, which grill grates are best; and why beer-can chicken is a waste of good beer and nowhere close to the best way to cook a bird. He shatters the myths that stand in the way of perfection. Busted misconceptions include: • Myth: Bring meat to room temperature before cooking. Busted! Cold meat attracts smoke better. • Myth: Soak wood before using it. Busted! Soaking produces smoke that doesn't taste as good as dry fast-burning wood. • Myth: Bone-in steaks taste better. Busted! The calcium walls of bone have no taste and they just slow cooking. • Myth: You should sear first, then cook. Busted! Actually, that overcooks the meat. Cooking at a low temperature first and searing at the end produces evenly cooked meat. Lavishly designed with hundreds of illustrations and full-color photos by the author, this book contains all the sure-fire recipes for traditional American favorites and many more outside-the-box creations. You'll get recipes for all the great regional barbecue sauces; rubs for meats and vegetables; Last Meal Ribs, Simon & Garfunkel Chicken; Schmancy Smoked Salmon; The Ultimate Turkey; Texas Brisket; Perfect Pulled Pork; Sweet & Sour Pork with Mumbo Sauce; Whole Hog; Steakhouse Steaks; Diner Burgers; Prime Rib; Brazilian Short Ribs; Rack Of Lamb Lollipops; Huli-Huli Chicken; Smoked Trout Florida Mullet –Style; Baja Fish Tacos; Lobster, and many more.
