L' ethos del mercato. Un'introduzione ai fondamenti antropologici e relazionali dell'economia

Questo libro può essere utile come Vademecum. Giornalmente la lettura di una pagina o anche di un brano potrebbe servire come spunto per meditare, per andare oltre l'orizzonte visivo normalmente presente.

Re-inventing the Italian Right

The Italian Cooperative Sector is amongst the largest in the world comprising over 60,000 cooperatives from all sectors of the economy directly employing 1.3 million people. Cooperatives created close to 30 percent of new jobs in Italy between 2001 and 2011 demonstrating that democratic cooperative enterprises can successfully operate in a market economy combining economic success and social responsibility. These offer a viable alternative to profit maximising enterprises and an opportunity to create a more pluralist and democratic market economy. The Growth of Italian Cooperatives: Innovation, Resilience and Social Responsibility comprehensively explains how the Italian cooperative sector has managed to compete successfully in the global economy and to grow during the global financial crisis. This book will comprehensively explain how the Italian cooperative movement has managed to grow into a large successful network of cooperatives. It will examine the legislative framework and their unique business model that allows it to compete in the market as part of a network that includes central cooperative associations, financial and economic consortia, and financial companies. It will explore cooperative entrepreneurship through a discussion of the formation of cooperative groups, start-ups, worker-buyouts and the promotion of entirely new sectors such as the social services sector. Finally, The Growth of Italian Cooperatives examines how cooperatives have managed the GFC and how their behavior differs from private enterprises. It will also analyze the extent to which cooperatives compete while still uphold the key cooperative principles and fulfil their social responsibility. This book is an interdisciplinary study of cooperative development and is designed to inform members of the academic community, government, public policy makers and cooperative managers that are primarily interested in economic democracy, economics of the cooperative enterprise, cooperative networks and economic development, cooperative legislation, democratic governance, job creation programs, politics of inclusion and how wealth can be more equitably distributed.

COME UN DIARIO

Publisher description

Guerra Per Sempre

"Parties and Elections in Europe" is a comprehensive reference guide to the parliamentary elections and governments in the European countries since 1945, the elections to the European Parliament since 1979 and to all significant political parties in Europe. Listed are more than 1250 parties (currently active parties and dissolved or inactive parties). The guide includes basic data of these parties (founding years, political orientations, affiliations to political parties at European level, political groups in the European Parliament and political internationals) and a chronological summary of their history (name changes, predecessors, mergers and splits).

ENCICLOPEDIA ECONOMICA ACCOMODATA ALL' INTELLIGENZA

The Routledge Handbook of Translation and Activism provides an accessible, diverse and ground-breaking overview of literary, cultural, and political translation across a range of activist contexts. As the first extended collection to offer perspectives on translation and activism from a global perspective, this handbook includes case studies and histories of oppressed and marginalised people from over twenty different languages. The contributions will make visible the role of translation in promoting and enabling social change, in promoting equality, in fighting discrimination, in supporting human rights, and in challenging autocracy and injustice across the Middle East, Africa, Latin America, East Asia, the US and Europe. With a substantial introduction, thirty-one chapters, and an extensive bibliography, this Handbook is an indispensable resource for all activists, translators, students and researchers of translation and activism within translation and interpreting studies.

The Growth of Italian Cooperatives

This topical book analyses the change of electoral rules in Italy from proportional representation toward plurality. While Italy is used as the illustrative case, the analysis has far-ranging theoretical and practical implications, and will therefore be of interest to academics and researchers of political economy, constitutionalism and public choice.

Signal

Following a historically chronological approach, and with a clear focus on the marked regional diversity characterising Italy, this volume analyses the impact of social, economic, cultural and political transformation on the lives of Italians. It assesses their living standards, their health and education, their working conditions and their leisure activities. The final part of the book examines contemporary Italian society in the light of the political and moral crisis of the early 1990s.

The Search for Neofascism

In 1977, a doctors' strike brought Malta to the brink of civil war. When Sarita Toledano, a descendant of one of the island's oldest Jewish clans, was killed by a letter bomb, her family scattered throughout the world. Thirty-four years later, her daughter, Claire, and her nieces, Ellie and Vanna, reluctantly return to decide the fate of two ageing aunts. What they find is a place once more in great turmoil; in the wake of the 'Arab Spring'

Parties and Elections in Europe

The year 1996 in Italian politics was a year rich in novelty. After the 'stalled transition' of 1995, the political atmosphere had begun to change. Most obvious was the end of Dini's unelected government of technocrats, supported by a heterogeneous group in Parliament, and its replacement with Romano Prodi's government, a coalition of the parties that had won the general election on April 21, 1996. But an even more important change and one more likely to be remembered was a new climate of dialogue amongst the main political forces that emerged from this period of transition between two republics. In 1996, despite the general elections, cooperation again became part of the political game.

The Routledge Handbook of Translation and Activism

During the European elections of 2014, one of the main issues raised by the media was the electoral performance of so called 'populist parties'. The electorate confirmed its deep dissatisfaction with mainstream political parties, voting for far right parties in parliamentary elections in Northern Europe (Austria, Denmark, Sweden), Eastern Europe (Hungary, where the deeply anti-Semitic Jobbik party gained votes) and in France (where the French National Front won about a quarter of the vote), while in the Southern European countries,

battered by austerity policies, it was the radical right and left in Greece (Golden Dawn and Syriza) and the radical left in Spain (Podemos) that obtained excellent scores. This book examines the growing trend towards far and extreme right populism that has emerged prominently in Northern (Finland), Western (Austria, Denmark, France, the UK), Southern (Greece, Italy) and Central/Eastern Europe (Slovenia, Bulgaria) since the 1990s. Providing a critical understanding of current European trends and analysing the complex phenomena covered by the notion of populism, this book will be of interest to students and scholars researching right-wing politics, as well as European politics more generally.

Rules, Choice and Strategy

No detailed description available for "\"The Atlantic Pact forty Years later\"".

Twentieth Century Italy

This book describes all the crucial issues that defined Italian political and social life during 1994 and interpreted by renowned scholars from Italy, the United States, and Britain, who provide an indispensable guide for understanding Italy's political transformation.

Mazzini

In the decades around 1900, there was a real boom in the establishment of nongovernmental international organizations in Europe. Their congresses debated a wide range of scientific, political, and social problems that had arisen with the industrial development and the dynamics of internationalization since the 1880s. The elites that were engaged in the meetings of international organizations, reacted to sociopolitical or economic change and developed new concepts for societal reform. The nation remained central to the world views of these elites and to the professional or political careers of their members. Internationalism and nationalism were closely linked in the decades before World War I. This shaped also their relations with national governments, the concrete forms of internal cooperation of international associations, and even the specific sociability of the transnational meetings of the elites. The contributions in this volume deal with the elites and encounters of various types of international organizations.

Italian Politics

How did the far right go from illegitimate fringe to contender for public office, and did Europe have anything

to do with it? Europe as Ideological Resource argues that European integration functioned as an ideological resource for far right parties looking for legitimization because it enabled them to refashion their political message in a more acceptable form, while maintaining the allegiance of their existing supporters. Drawing on the qualitative analysis of over 400 documents produced by the Movimento Sociale Italiano/Alleanza Nazionale in Italy (1978-2009) and the Rassemblement National in France (1978-2019), Lorimer identifies the core concepts and discourses the parties used to talk about Europe, and the legitimization mechanisms associated with them. The book's narrative is developed through the analysis of four key concepts: the concept of identity, which enabled the parties to transnationalise their message and create a positive association between themselves and Europe; the concept of liberty, which made it possible for them to foster an image of actors holding uncontroversial positions; the concept of threat, which helped them promote the idea that 'desperate times call for desperate measures'; and the concept of national interest, which helped them stress commitment to core principles in their ideology. Ever since its re-emergence on the European political scene, scholars have sought to explain the mainstreaming of the far right. By understanding how the process of European integration facilitated its transition from the margins to the mainstream, this book adds one piece to the puzzle of far right legitimization.

Understanding the Populist Shift

This book presents a comprehensive and incisive exploration of the intricacies of the Italian political system. Written in a lucid and informative style, the work features: an examination of Italian political history from 1943 to the present day an analysis of the governmental system, the constitutional framework, the core institutions, the electoral system and the key parties an analysis of the role of contemporary pressure groups and social movements including environmental, labour and institutional organisations discussions of important topical issues, such as corruption and organised crime an exploration of Italian foreign policy towards the EU, the US and the wider world a wide range of examples, tables and figures. Italian Politics: Exploring the Dynamics of Political Change is an indispensable resource for students and scholars delving into Italian politics, Italian studies, European politics/studies, political systems and comparative politics.

The Atlantic Pact forty Years later

Employing primary sources and interviews with protagonists of the rebellion of the Italian North, this book explores the invention of the Padanian nation and the construction of identity politics in Northern Italy. It reveals for the first time the connection between the ethnic wave in European party politics in the 1970s and the rise of a new radical right nationalism in the 1990s. The author highlights the way in which the discourse of national minorities was instrumental in the rise of a new political agenda that links territory, identity and cultural rights to create new boundaries of exclusion. In addition to clarifying the connection between the new nationalism and racism by demonstrating how cultural distinctiveness is constructed in contemporary European politics, this unique book also explores the dynamics of new party mobilization and the symbolic resources of nationalist rhetoric. This book presents for the first time data on political participation - both party elites and members - and the real dimension of the party organization.

Italian Politics

I trentasei studi sul Nuovo Testamento qui raccolti sono espressione di gratitudine al Cardinal Albert Vanhoye. S.I., esempio di una vita totalmente spesa a servizio della Chiesa di Cristo, nell'insegnamento competente della sacra Scrittura, nella ricerca instancabile e nella zelante predicazione del Verbo di Dio, nonché nella sua attività di consigliere saggio e discreto presso vari dicasteri della Curia Romana. E un omaggio ad un uomo di fede, che ha infaticabilmente indagato la Sacra Scrittura, sia per trovarvi il fondamento della propria esistenza che per annunziare agli altri la parola di vita (Fil 2.16). Il libro intende essere uno strumento per proseguirne la medesima indagine e lo stesso annuncio.

Transnational Encounters?

This book is an in-depth study of Fratelli d'Italia, the party led by Italian Prime Minister Giorgia Meloni. After providing a concise history of the neo-fascist and post-fascist parties to which Fratelli d'Italia is heir, the book examines its founding, statutory rules and internal organisation. The authors explore Meloni's communication style and the national conservative ideology she has embraced, Fratelli d'Italia's international network of alliances and its place in EU politics, and the composition of the electorate that led to the success of her and the party in the 2022 parliamentary elections. Through well-documented, rigorous and impartial analysis, the book offers insights into the path Fratelli d'Italia has taken and the identity it has built in its first ten years – explaining why a political tradition that seemed destined for extinction has come to power and is now attempting to change coalition politics in the EU. In doing so, the authors challenge several entrenched assumptions about populist and radical right-wing parties. The Italian edition of the book was reviewed in national newspapers and other media, garnering praise from a wide range of political perspectives.

Rivista Processi storici e politiche di pace n. 7-8 2009

In English and Italian, with special t.p. in Italian: Perche l'Italia e entrata nell grande guerra ...

Europe as Ideological Resource

In 2001, for the first time in the history of the Italian Republic, an opposition replaced the incumbent government as a consequence of an electoral victory. In the May General Election, the center-left government was ousted and a new right-right majority came into office. It would be premature to suggest that this election represents the birth of a new Italian political system, one that will be based on an ongoing alternation in government between two coalitions and a realignment of voters and parties. Nevertheless, the second Berlusconi government — aside from the various political judgments of it – undoubtedly constitutes an institutional and political novelty. This is not just because the left-left proved unable, in the election campaign, to exploit its achievements in office when confronted with someone with undoubted (if controversial) abilities, but also because of the likely impact of the new government on policy making and Italy's economic, social and international trajectory. This edition of Italian Politics evaluates the 2001 election and impact and analyzes the electoral success of the right, the election campaign, the crisis of the left-left after the defeat, and the composition of the new parliament.

Italian Politics

The two centuries that chronologically bind the topics in this volume span a period when Europe was in its global ascendancy. This volume explores the various factors related to the projection and limitation of imperial powers in the western world between 1618 and 1850.

Ethnicity and Nationalism in Italian Politics

"Parties and Elections in Austria and South Tyrol" is a comprehensive reference guide to the federal and state elections and federal and state governments in Austria since 1918, the national and provincial elections and provincial governments in South Tyrol (Italy), the elections to the European Parliament and to all significant present and past political parties. Listed are more than 240 parties. The guide includes basic data of these parties (founding years, political orientations, affiliations to European political parties, European Parliament groups and political internationals) and a chronological summary of their history (predecessors, name changes, mergers and splits).

Il Verbo di Dio è vivo

Publisher Description

Brothers of Italy and the Rise of the Italian National Conservative Right under Giorgia Meloni

As European security structures are undergoing transformation in the 1990s it is crucial to examine their origins and rationale: NATO secured peace and facilitated economic and political co-operation, while also becoming the vehicle of national rivalry. This book examines why and how NATO came into existence, and what its strengths and weaknesses were during its formative years. It draws conclusions from these experiences relevant to the reforms of Western security structures in the 1990s.

Why Italy Entered Into the Great War, by Luigi Carnovale

Globally, consumer co-operation has experienced a difficult period since the 1970s. Large scale failures in France, Germany and Austria were accompanied by loss of market share in the UK (including the failure of the Scottish Co-operative Wholesale Society and its takeover by its English counterpart). Even in the Nordic countries, where consumer co-operation has always been more robust, new challenges from the non-co-operative sector had to be confronted. How did co-operative organizations in different countries cope with these challenges? What were the processes of strategic renewal that they undertook? How successful were they? These are the key questions that the collection will address, culminating in an analysis by the editors of the effectiveness of strategic renewal in the co-operative sector. This book is a study of strategic renewal in the consumer co-operative sector, using eleven international case-studies to demonstrate how the concept has been applied over the last fifty years.

The Return of Berlusconi

For the last two decades the number of political organizations on the far right, neo-populist right and neo-conservative right has been growing. Along with the mounting electoral success for many of the parties there has also been a growing disenchantment with the political class which has led to a revolt against the current political 'establishment'. The events of September 11, 2001 and the 'War on Terror' have further aggravated tensions within the populations between those who feel they are the 'legitimate' citizens of the state and those who are considered 'outsiders'. The recent expansion of the EU's borders has also brought on fears of a surge of both legal and illegal immigration. All these factors have led to a growing number of cases of harassment and outbursts of violence aimed at asylum seekers and ethnic minorities in Europe. This book measures the effects of neo-populist groups on the current political establishment and illustrates how much political appeal neo-populist views have on making current political policy.

The Projection and Limitations of Imperial Powers, 1618-1850

During the Cold War Italy witnessed the existence of an anomalous version of a civil conflict, defined as a 'creeping' or a 'low-intensity' civil war. Political violence escalated, including bomb attacks against civilians, starting with a massacre in Milan, on 12 December 1969, and culminating with the massacre in Bologna, on 2 August 1980. Making use of the literature on national reconciliation and narrative psychology theory, this book examines the fight over the 'judicial' and the 'historical' truth in Italy today, through a contrasting analysis of judicial findings and the 'narratives of victimhood' prevalent among representatives of both the post- and the neo-fascist right.
