

# 3 Programming Manual

## MATH-MATIC (redirect from AT-3 programming language)

MATH-MATIC is the marketing name for the AT-3 (Algebraic Translator 3) compiler, an early programming language for the UNIVAC I and UNIVAC II. MATH-MATIC...

## Comparison of multi-paradigm programming languages

Programming languages can be grouped by the number and types of paradigms supported. A concise reference for the programming paradigms listed in this article...

## Glob (programming)

written in the B programming language. It was the first piece of mainline Unix software to be developed in a high-level programming language. Later, this...

## ARITH-MATIC (redirect from A-3 programming language)

extension of Grace Hopper's A-2 programming language, developed around 1955. ARITH-MATIC was originally known as A-3, but was renamed by the marketing...

## Occam (programming language)

platforms are available. The most widely known version is occam 2; its programming manual was written by Steven Ericsson-Zenith and others at Inmos. In the...

## Man page (redirect from UNIX manual)

(short for manual page) is a form of software documentation found on Unix and Unix-like operating systems. Topics covered include programs, system libraries...

## Mojo (programming language)

[opensourceforu.com/2024/04/programming-languages-for-ai-applications-and-why-mojo-is-among-the-best/](https://opensourceforu.com/2024/04/programming-languages-for-ai-applications-and-why-mojo-is-among-the-best/) "Mojo programming manual" docs.modular.com. Modular...

## The C Programming Language

The C Programming Language (sometimes termed K&R, after its authors' initials) is a computer programming book written by Brian Kernighan and Dennis Ritchie...

## Comparison of programming languages

Programming languages are used for controlling the behavior of a machine (often a computer). Like natural languages, programming languages follow rules...

## B (programming language)

encyclopedia quotation in its manual), after a religion whose rituals involve the murmuring of magic formulas." "B - computer programming language",. Ritchie, Dennis...

### **Ada (programming language)**

numerical, financial, and object-oriented programming (OOP). Features of Ada include: strong typing, modular programming mechanisms (packages), run-time checking...

### **C (programming language)**

programming languages, with C compilers available for practically all modern computer architectures and operating systems. The book The C Programming...

### **Fortran (redirect from Fortran programming language)**

programming, array programming, modular programming, generic programming (Fortran 90), parallel computing (Fortran 95), object-oriented programming (Fortran...

### **Zig (programming language)**

about those types using reflective programming (reflection). Like C, Zig omits garbage collection, and has manual memory management. To help eliminate...

### **Python (programming language)**

supports multiple programming paradigms, including structured (particularly procedural), object-oriented and functional programming. Guido van Rossum...

### **Esoteric programming language**

esoteric programming language (sometimes shortened to esolang) is a programming language designed to test the boundaries of computer programming language...

### **Nim (programming language)**

can functions, allowing for the use of functional programming methods. Object-oriented programming is supported by inheritance and multiple dispatch....

### **Bash (Unix shell) (redirect from Bourne-Again shell (programming language))**

"Bourne Again Shell") is an interactive command interpreter and command programming language developed for Unix-like operating systems. Created in 1989 by...

### **HHVM (redirect from HHBC (computer programming))**

just-in-time (JIT) compilation that serves as an execution engine for the Hack programming language. By using the principle of JIT compilation, Hack code is first...

### **Turbo Pascal (category Object-oriented programming languages)**

Toolbox Manual (PDF). "Turbo Pascal 5.5: version of programming language Pascal".  
progopedia.com. "Turbo Pascal 6.0: version of programming language...
