King Zog

King Zog was a curiosity, and so he has remained: the most unusual European monarch of the twentieth century, a man entirely without royal connections who created his own kingdom. By contemporaries, he was variously labelled 'the last ruler of romance', 'an appalling gangster', 'the modern Napoleon', the finest patriot' and 'frankly a cad'. Even today his reputation is disputed, but Zog was undeniably one of the foremost figures in Albanian history. Though notorious for cut-throat political intrigue, he promised to bring order and

progress to a land that had long known little of either. 'It was I who made Albania,' he claimed.

Albania and King Zog

When Lenny Bruce overdosed in 1966, he left behind an impressive legacy of edgy, politically charged comedy. Four short years later, a new breed of comic, inspired by Bruce's artistic fearlessness, made telling jokes an art form, forever putting to rest the stereotype of the one-liner borscht belt set. During the 1970s, a small group of brilliant, iconoclastic comedians, led by George Carlin, Richard Pryor, and Robert Klein, tore through the country and became as big as rock stars in an era when *Saturday Night Live* and *SCTV* were the apotheosis of cool, and the Improv and Catch a Rising Star were the hottest clubs around. That a new wave of innovative comedians, like Steve Martin, Albert Brooks, Robin Williams, and Andy Kauffman followed closely behind only cemented comedy's place as one of the most important art forms of the decade. In *Comedy at the Edge*, Richard Zoglin explores in depth this ten-year period when comedians stood, with microphone in hand, at the white-hot center of popular culture, stretching the boundaries of the genre,

fighting obscenity laws, and becoming the collective voices of their generation. In the process, they revolutionized an art form. Based on extensive interviews with club owners, booking agents, groupies, and the players themselves, Zoglin traces the decade's tumultuous arc in this no-holds barred, behind-the-scenes look at one of the most influential decades in American popular culture.

The inspiration for the CNN original series Vegas: The Story of Sin City “Outstanding pop-culture history.” —Newsday The “smart and zippy account” (The Wall Street Journal) of how Las Vegas saved Elvis and Elvis saved Las Vegas in the greatest musical comeback of all time. Elvis’s 1969 opening night in Vegas was his first time back on a live stage in more than eight years. His career had gone sour—bad movies, mediocre pop songs that no longer made the charts—and he’d been dismissed by most critics as over-the-hill. But in Vegas he played the biggest showroom in the biggest hotel in the city, drawing more people for his four-week engagement than any other show in Vegas history. His performance got rave reviews; “Suspicious Minds,” the song he introduced there, gave him his first number-one hit in seven years; and Elvis became Vegas’s biggest star. Over the next seven years, he performed more than 600 shows there, and sold out every one. Las Vegas was changed, too. By the end of the ‘60s, Vegas’ golden age—when the Rat Pack led a glittering array of stars who made it the nation’s premier live-entertainment center—was losing its luster. Elvis created a new kind of Vegas show: an over-the-top, rock-concert extravaganza. He set a new bar for Vegas performers, with the biggest salary, the biggest musical production, and the biggest promotion campaign the city had ever seen. He opened the door to a new generation of pop/rock artists and brought a new audience to Vegas—not the traditional well-heeled older gamblers, but a mass audience from Middle America that Vegas depends on for its success to this day. At once “a fascinating history of Vegas as gambling capital, celebrity playground, mob hangout, [and] entertainment Valhalla” (Rolling Stone) and the incredible “tale of how the King got his groove back” (Associated Press), *Elvis in Vegas* is a classic feel-good story for the ages.

The Gruffalo

Shortly before 5pm on Saturday 1 September 1928 Europe gained a new kingdom and its only Muslim king: 32-year-old Zog I of Albania. Zog I was a crucial figure in modern Albanian history, creating - or attempting to create - national and cultural identity for a country that had known little stability or sense of identity since the middle ages. He was also the most unusual monarch of the 20th century, described by contemporaries as: "a despotic brigand"; "the modern Napoleon"; "Mussolini's lackey"; "the finest patriot"; "frankly a cad". This biography shows Zog as the product of a unique time and place. People who live in secure, stable countries are invited to set aside their assumptions about European monarchy and meet a king who fired back at assassins and paid his bills with gold bars.

Arthur James Balfour was British prime minister (1902-5) and foreign secretary (1916-19), a conservative and an intellectual. This is the first analysis of his thinking on a full range of international issues, such as British imperialism, Great Power relations in Europe, Africa, the Middle East, central Asia and the Far East, the First World War, the Russian revolution, Zionism, the League of Nations and, above all, the Anglo-American relationship. Balfour emerges with a distinctively conservative approach to foreign affairs that demonstrates a continuity of belief from his philosophical writings to his political practice.
