## Panic Attack

Since the 2016 election, college campuses have erupted in violent protests, demands for safe spaces, and the silencing of views that activist groups find disagreeable. Who are the leaders behind these protests, and what do they want? In *Panic Attack*, libertarian journalist Robby Soave answers these questions by profiling young radicals from across the political spectrum. Millennial activism has risen to new heights in the age of Trump. Although Soave may not personally agree with their motivations and goals, he takes their ideas seriously, approaching his interviews with a mixture of respect and healthy skepticism. The result is a faithful cross-section of today's radical youth, which will appeal to libertarians, conservatives, centrist liberals, and anyone who is alarmed by the trampling of free speech and due process in the name of social justice.

## **A Hedonist in the Cellar**

This volume proposes a new way to address the classical question concerning the relation between language, cognition, and culture from the perspective of two basic systems: deixis and the pronominal system. It investigates the linguistic structuring of basic concepts of person, place and time in Romance languages, disclosing structural differences that may be related to mental parameters and other extra-linguistic circumstances and thus possibly linked to a light revision of the Sapir-Whorf hypothesis. The methodological and theoretical focus is based on the discursive and pragmatic functional approach to deixis. The articles concern linguistic variation and language change, and most of the studies adopt cross linguistic perspectives, primarily among Romance languages, but also with a classical perspective from Ancient Greek discussing the existence of universal categorical patterns. The studies reveal similarities and differences between Romance languages mutually, and set the stage for comparisons between Romance and non-Romance languages. These similarities and differences are subject to change in connection with cultural developments in society and offer in this volume a coordinated effort in exploring the linguistic expressions of these extra-linguistic concepts.

The Veneto region offers travelers all manner of adventures from the cultural, intellectual sort right down to the seat-of-your-pants thrilling variety. Whether planning your itinerary entirely around a particular activity like a week-long cycling holiday or a language immersion course, or if you're trying to offset your museum and church-heavy itinerary with some off-the-beaten track activities, there are a tremendous number of opportunities to help you broaden your experiences, live the culture and acquaint yourself with the locals. This book focuses on exploring the Veneto's wine zones while highlighting cultural adventures, sports adventures, adventures for the soul, family adventures, driving adventures and many other types of activities to help you discover more about the land, and about yourself. Writers, painters, historians and philosophers have long been inspired by the dramatic landscapes of the Veneto Region and, by translating astute observations on canvas or in print, have captured the beauty of a land and a people that have evolved over many centuries. Situated in Italy's northernmost zone, few other regions boast such diverse landscapes. From the low sandy coastline where the Veneto meets the Adriatic Sea, to the mighty Alpine peaks, rolling hills, thermal springs and lagoon systems, the varied landscape makes for lively getaways any season of the year. Veneto, a name that derives from Veneti, a pre-Roman people who once inhabited the area, is divided into seven provinces: Belluno, Padua, Rovigo, Treviso, Venice, Verona and Vicenza. During Venice's golden age, aristocrats brought their wealth to the Veneto countryside and commissioned architects to build agricultural

estates and country homes. Today, more than 4,000 villas remind us of that period, the most famous of which were designed by 16th-century architect Andrea Palladio. The Veneto's depth, however, extends far beyond its artistic treasures. Vineyard-clad hills throughout the Veneto produce internationally acclaimed wines including Valpolicella, Soave, Bardolino and Custoza. From grappa, Bassano del Grappa's distilled liquor, and Valdobbiadene's sparkling Prosecco wine, to Asiago's cheese from mountain dairies, and seafood from the lagoon, the Veneto is a food- and wine-lovers' delight. This guide tells you about the wine-growing regions especially: the Euganean Hills, Prosecco, Soave, Cistoza, Bardolino, Valpolicella, Bassano del Grappa - how to visit the vineyards, taste the wines, trying the best restaurants, and the best places to stay in each region. All of the details you need to know are here so your trip will be unforgettable.

The present volume of studies on the life and work of Moritz (Moshe) Steinschneider (1816-1907) seeks to modify the traditional view of Steinschneider as a “mere bibliographer” by revealing other dimensions of his scientific personality. Together, the articles show that Steinschneider’s manifold scholarly activities were rooted in a well-defined scientific agenda, which modern readers do not easily recognize but which deserves to be recovered. This volume represents a first attempt to sketch Steinschneider’s intellectual biography and highlights the continued significance of his work for Jewish studies. It is an important contribution to our understanding of the project of nineteenth-century *Wissenschaft des Judentums* and its lasting impact on contemporary scholarly practice.

At one time, Italian wines conjured images of cheap Chianti in straw-wrapped bottles. More recently, expensive “Super Tuscans” have been the rage. But between these extremes lay a bounty of delicious, moderately priced wines that belong in every wine drinker’s repertoire. *Vino Italiano* is the only comprehensive and authoritative American guide to the wines of Italy. It surveys the country’s wine-producing regions; identifies key wine styles, producers, and vintages; and offers delicious regional recipes. Extensive reference materials—on Italy’s 300 growing zones, 361 authorized grape varieties, and 200 of the top producers—provide essential information for restaurateurs and wine merchants, as well as for wine enthusiasts. Beautifully illustrated as well as informative, *Vino Italiano* is the perfect invitation to the Italian wine experience.

Gerald Asher, who served as *Gourmet*’s wine editor for thirty years, has drawn together this selection of his essays, published in *Gourmet* and elsewhere, for the collective insight they give into why a wine should always be an expression of a place and a time. Guiding the reader through twenty-seven diverse wine regions in France, Italy, Spain, Germany, and California, he shows how every wine worth drinking is a reflection of its *terroir*—in the broadest sense of that untranslatable word. In evocative reminiscences of wines, winemakers, and the meals he has had with them, he weaves together climate, terrain, and local history, sharing his knowledge and experience so skillfully that we learn as we are entertained and come to understand, gradually, that the meaning and pleasure of a wine lie always in the context of its origin and in the concurrence of where, how, and with whom we enjoy it.

Opera can reveal something fundamental about a film, and film can do the same for an opera, argues Marcia J. Citron. Structured by the categories of Style, Subjectivity, and Desire, this volume advances our understanding of the aesthetics of the opera/film encounter. Case studies of a diverse array of important

repertoire including mainstream film, opera-film, and postmodernist pastiche are presented. Citron uses Werner Wolf's theory of intermediality to probe the roles of opera and film when they combine. The book also refines and expands film-music functions, and details the impact of an opera's musical style on the meaning of a film. Drawing on cinematic traditions of Hollywood, France, and Britain, the study explores Coppola's *Godfather* trilogy, Jewison's *Moonstruck*, Nichols's *Closer*, Chabrol's *La Cérémonie*, Schlesinger's *Sunday*, *Bloody Sunday*, Boyd's *Aria*, and Ponnelle's opera-films.

An essential guidebook to the region. An amazing resource for anyone traveling in the area. I highly recommend using this book as a reference tool. -- S. Johnson, Amazon reviewer. Italy's northernmost zone, the Veneto includes Padua, Verona, Vicenza, plus Venice itself, which once ruled the area. Some 5,000 Renaissance villas still stand, many by Palladio. A food- and wine-lover's paradise, it's also the most artistically rich region in Italy, and the most romantic, with the art of Giotto and Mantegna in Padua, the Roman ruins in Verona, the canals and palaces in Venice itself. Bellini, Tintoretto, Veronese and Titian worked here. Experience their art and be part of their world, with the insights of an insider. Every detail is here about the foods, the sights, the best places to stay and eat. Vicenza is an essential stop on the itineraries of architecture lovers and Palladio followers, but is unfortunately bypassed by many tourists traveling through the Veneto region who don't realize what it has to offer. This well-kept secret has made remarkable cultural and economical contributions to the region and merits a visit, if only for a few hours. Vicenza is an important Renaissance city with an impressive number of buildings dating back to the 1500s, many of them attributed to Andrea Palladio. It was during this period that Andrea di Pietro della Gondola came to Vicenza as a 16 year-old stone mason and through a combination of his own talent and a fine network of mentors, grew to be the great architect who dramatically transformed Vicenza's urban image. Palladio was commissioned to build palazzi for the city's wealthy residents, redesign several buildings which had been badly damaged by the League of Cambrai and to make the city better reflect the influence of the Republic of Venice. His finest works in the city include the Teatro Olimpico, the Basilica Palladiana and the Palazzo Chiericati. Italy's largest lake and one of its most visited vacation spots, Lake Garda is between the Alps and the Pianura Padana (Padana plains) with the Trentino region bordering it to the north, the Lombardy region to its west and the Veneto region to the east. As one of the most prosperous cities in northern Italy and the second-most visited in the Veneto, Verona's streets exhibit an interesting mélange of Roman, medieval, Renaissance and Venetian influences. And with unmistakably firm roots in classical tradition, the city that underwent significant urban development following World War II has a cosmopolitan identity that its high-fashion stores and impeccably dressed businessmen reflect. At the crossroads of two important Roman roads, Verona served as a critical strategic and commercial center for many centuries. It began as a colony of the Roman Empire in the first century BC and was joined with the Empire in 49 BC. The arena, one of the world's best-preserved Roman amphitheaters, was built to accommodate upwards of 20,000 spectators and, along with the Roman theater and the city's gates, Verona maintains its Roman identity today. Mountainous terrain, volcanic soils, innumerable microclimates, and an ancient culture of winemaking influenced by Greeks, Phoenicians, and Romans make Italy the most diverse country in the world of wine. This diversity is reflected in the fact that Italy grows the largest number of native wine grapes known, amounting to more than a quarter of the world's commercial wine grape types. Ian D'Agata spent thirteen years interviewing producers, walking vineyards, studying available research, and tasting wines to create this authoritative guide to Italy's native grapes and their wines. Writing with great enthusiasm and deep knowledge, D'Agata discusses more than five hundred different native Italian grape varieties, from Aglianico to Zibibbo. D'Agata provides details about how wine grapes are identified and classified, what clones are available, which soils are ideal, and what genetic evidence tells us about a variety's parentage. He gives historical and anecdotal accounts of each grape variety and describes the characteristics of wines made from the grape. A regional list of varieties and a list of the best producers provide additional guidance. Comprehensive, thoroughly researched, and engaging, this book is the perfect companion for anyone who wants to know more about the vast enological treasures cultivated in Italy.

While the subject of wine, beer, and spirits continues to grow in popularity, there are very few books that approach the subject in an accessible manner and that also contain the pedagogical features needed by instructors. In addition, most books cover the subject of wine only, while hospitality students need a broader base on knowledge that also includes beer and spirits. After finishing the book, readers will be prepared to take the introductory certification exams of the Court of Master Sommeliers, International Sommelier Guild, and Society of Wine Educators and receive a first-level certification. Divided into five parts, Gibson covers wine, beer, and spirits. Along with a history of each type of beverage, he also covers how these beverages are produced and manufactured, varieties and styles of these beverages, and food pairings. Most importantly, Gibson covers costing, pricing, merchandising, marketing, and storing wine, along with creating a balanced wine list and table service.

In their latest adventure, the mis-matched romantic duo of Mitch Berger, a Jewish film critic from New York, and Desiree Mitry, Dorset's newest resident trooper, come face to face

with murder. Transplanted New York film critic Mitch Berger is discovering a whole new world in the idyllic atmosphere of wealthy Dorset, Connecticut, not the least of which is his new love. That's Resident State Trooper Desiree Mitry, beautiful, bright, and strong-minded. Des has transferred out of her position as the highest-ranking black woman in the State Police Homicide department to give more time to the art for which she has a sure talent. Shortly after Mitch's encounter with "Hangtown" Frye in the town dump, his new friend suffers the worst blow of his life - his beloved daughter "Moose" is killed when her sister's car, which she was driving, explodes. It's very soon clear that the explosion was no accident, and Des, as one more familiar with the community than the state cop in charge, takes an advisory part in the investigation. As one of the very few Dorset citizens with whom Frye will have any truck, Mitch is involved in two directions - as a good friend willing to help as he can around the dilapidated farmhouse that is Frye's ancestral home, and as the devoted, if unlikely, lover of the police officer unofficially but very actively on the case. Meanwhile, the old town is coming to a boil over the question of a new public elementary school, one that will be built with contributions from a developer with nothing but good wishes for the education of the local children, and coincidentally a program of healthful outdoor living for those who can afford the homes he will build on the old school property. Hangtown and Mitch are among the dispute's dubious. In a climax that is a realistic and frightening version of a tour through an amusement park "haunted" house, the film critic and his policewoman love come close to tragedy. Readers met these "wonderfully drawn characters [Susan Isaacs] and "best buddy team to come along in years" [Jeffrey Deaver] in Handler's first book of the series, *The Cold Blue Blood*. Now, in *The Hot Pink Farmhouse*, Handler carries on their sharp, inimitable and lively adventures to further delight his readers.

In the summer of 1976 a successful workshop on nucleic acids and protein synthesis in plant systems was organised in Strasbourg by Jacques Weil and Lawrence Bogorad. The participants in the workshop, were,

without exception, excited both by the quality of the work discussed and by the rapid progress being made in several areas of genomic analysis and expression in plants. It also became apparent that there was a need for an international assembly of this sort at regular intervals. These workshops not only encourage stimulating discussion and constructive thinking but also result in increased collaboration and productive liaison between laboratories with common interests. Hence a ten-day advanced studies institute course was organised in Edinburgh from 11-21 July 1979, and in this volume we have published the contributions given by the invited speakers. The subjects discussed covered most areas of plant molecular biology and the lecturers were asked to balance a review of their chosen subject with the results of their own recent research and likely future advances. Probably the most important technical advance since the previous meeting of this group in Strasbourg, was the application of restriction enzyme analysis and cloning techniques. This is illustrated in many of the published lectures and was the basis for many of the more informal discussion sessions.

Did religion disappear with modernization and the secularization reforms that changed the relation between religion and state throughout the European empires and nation states from late nineteenth century onwards? Or was religion rather transformed becoming a part of the new social and national imaginaries on the road from European empires to African, Middle Eastern, European Union- and Post-Soviet nation states? What are the historical roots behind the divisions of state, church and education that characterized the late nineteenth and during the twentieth century? What has been the role of education in this context, both with regard to political reforms targeting the education systems and with regard to broader public enlightenment efforts and modernization of the state? Connecting scholars across the fields of history and historical sociology of education, church history and historical religion research and political history, and covering the time span from the early modern period and up until the present, this volume explores how education reform has functioned as an arena for the political project of secularization and in which way this contributed to transforming and revitalizing religion.

Nemeth provides a comprehensive overview of the tumultuous times in nineteenth-century Italian philosophy and presents the main proponents of neo-Kantianism in dedicated chapters. Kant's thought initially entered Italy via French sources but met resistance from the dominant philosophy of sensationalism. Those who faulted that latter philosophy turned to Kant, albeit only in piecemeal fashion, incorporating even elements from British philosophy. With the success of Italian unification came a small but vigorous Hegelian wave, one advocating an interpretation oriented toward recent political accomplishments, another followed strictly orthodox lines, and still another a pantheistic interpretation. In the wake of this Hegelian movement, several young philosophers initiated an Italian neo-Kantianism that centered on a realist reading of Kant's epistemology with hardly a nod to either transcendental idealism or the transcendental method. The Italian movement grew ever closer to positivism, particularly as the latter independently found support. But the final blow to the movement came from a revived neo-Hegelianism. Although short lived, Italian neo-Kantianism confronted problems associated both with Kantian idealism and the role of philosophy.

## Italian Neo-Kantianism

This volume is the first appearance of Vini d'Italia in an English language edition, but in its Italian version the guide has a long history. Since its first edition in 1988, the guide has played a major role in Italy's fine wine market; both professionals and wine enthusiasts have learned to trust its evaluations. Italian Wines 1998 surveys the panorama of quality wine production in Italy. This 600 page volume reviews and evaluates about 8,500 wines and 1,400 wineries. During 1997, after months of blind tastings, 117 prize-winning wines were selected and indicated with a symbol that has become synonymous with quality: three glasses, tre bicchieri. This year, the Tuscany and Piedmont regions garnered the largest number of three glasses rewards, with 29 and 26 labels respectively.
