

Is Allah Real

Qur'an and Bible

Rival 'communities of the faithful' are not in the habit of reading each other's books, and when they do so, it is often to find fault and disparage. This attitude, so common a generation ago, is today giving way to mutual tolerance and an interest in 'dialogue'. However, we are still at the stage of being content with a superficial reading of each other's scriptures. First published in 1978, *Qur'an and Bible* attempts to delve deeper, to solve some persistent puzzles, and to explore the common culture from which the Holy Books spring. Hebrew and Arabic, the original languages of the Bible and Qur'an are of the same linguistic family. Hence Arabic is a useful instrument with which to probe for the meaning of ancient Hebrew expressions and ideas as found in the Old Testament, and which continue to pose problems for translators and commentators. It is not merely a matter of one language elucidating another, but, more profoundly, of the light a language with a long unbroken tradition can throw on the desert culture shared by both the ancient Hebrews and the ancient Arabians.

Allah

Do Muslims and Christians Worship the Same God? Yale University religion scholar Miroslav Volf—widely known for the much-publicized course on faith and globalization he coteaches with Tony Blair—places this question at the root of the twenty-first century's most sensitive, and critical, geopolitical concerns. Volf reveals how the prevalent belief that these traditions worship different gods is directly linked to increased hostility and violence around the globe. Theological wars fuel real wars.

The Qur'an & Modern Science: Compatible or Incompatible?

Ever since the dawn of human life on this planet, Man has always sought to understand Nature, his own place in the scheme of Creation and the purpose of Life itself. In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. Al-Qur'aan, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains guidance for all mankind. Since the message of the Qur'aan is believed to be for all times, it should be relevant to every age. Does the Qur'aan pass this test? In this booklet, I intend to give an objective analysis...

Why I Am Not a Muslim

Those who practice the Muslim faith have resisted examinations of their religion. They are extremely guarded about their religion, and what they consider blasphemous acts by skeptical Muslims and non-Muslims alike has only served to pique the world's curiosity. This critical examination reveals an unflattering picture of the faith and its practitioners. Nevertheless, it is the truth, something that has either been deliberately concealed by modern scholars or buried in obscure journals accessible only to a select few.

Seeking Allah, Finding Jesus

In Seeking Allah, Finding Jesus, now expanded with bonus content, Nabeel Qureshi describes his dramatic journey from Islam to Christianity, complete with friendships, investigations, and supernatural dreams along the way. Providing an intimate window into a loving Muslim home, Qureshi shares how he developed a passion for Islam before discovering, almost against his will, evidence that Jesus rose from the dead and claimed to be God. Unable to deny the arguments but not wanting to deny his family, Qureshi struggled with an inner turmoil that will challenge Christians, Muslims, and all those who are interested in the world's greatest religions. Engaging and thought-provoking, Seeking Allah, Finding Jesus tells a powerful story of the clash between Islam and Christianity in one man's heart—and of the peace he eventually found in Jesus. "I have seldom seen such genuine intellect combined with passion to match ... truly a 'must-read' book."—Ravi Zacharias

The Names of God in Judaism, Christianity, and Islam

This book offers a welcome solution to the growing need for a common language in interfaith dialogue; particularly between the three Abrahamic faiths in our modern pluralistic society. The book suggests that the names given to God in the Hebrew Bible, the New Testament and the Qur'an, could be the very foundations and building blocks for a common language between the Jewish, Christian and Islamic faiths. On both a formal interfaith level, as well as between everyday followers of each doctrine, this book facilitates a more

fruitful and universal understanding and respect of each sacred text; exploring both the commonalities and differences between each theology and their individual receptions. In a practical application of the methodologies of comparative theology, Maire Byrne shows that the titles, names and epithets given to God in the sacred texts of Judaism, Christianity and Islam contribute towards similar images of God in each case, and elucidates the importance of this for providing a viable starting point for interfaith dialogue.

Allah Vs. Jesus

This book compares Islamic theology with the Christian theology found in the Bible, and clearly shows which is true and which is false. Islam is the largest religion in the world, and is growing fast. Does this prove Islam to be true, and Christianity to be false? Should you and your loved ones join the crowd and become a Muslim? How long halt ye between two opinions? If Jesus be God, then serve him. But if Allah be God, then serve him. If Islam is false, then its shariah law is Satanic, so oppose shariah law as slavery and tyranny. But if Islam is true, then freedom is Satanic, so opposed freedom as evil and anti-God. This book explains how to understand the Quran by interpreting it in the same manner as Muslim clerics. Islamic doctrines discussed include: Jesus, jihad, monotheism and the Trinity, the Comforter, Heaven, Hell, and the Five Pillar of Islam as they relate to what a Muslim believes he must do to be saved from his sins. Muhammad's role as the final prophet, and his character and sexual practices are examined. Also discussed is how birth control and Bible versions relate to the clash between Islam and Christianity. Should Muslims convert to Christianity, or should Christians convert to Islam? Read this book to find out.

The Rig Veda

Each person is born in a circumstance which is not of his own choosing. The religion of his family or the ideology of the state is thrust upon him from the very beginning of his existence in this world. By the time he reaches his teens, he is usually fully brain-washed into believing that the beliefs of his particular society are the correct beliefs that everyone should have. However, when some people mature and are exposed to other belief-systems, they begin to question the validity of their own beliefs. The seekers of truth often reach a point of confusion upon realizing that each and every religion, sect, ideology and philosophy claims to be the one and only correct way for man. Indeed, they all encourage people to do good. So, which one is right?

The True Religion of God

From New York Times bestselling author of Seeking Allah, Finding Jesus Nabeel Qureshi—a former Muslim—comes his deeply personal, challenging, and respectful answer book to the many questions surrounding jihad, the rise of ISIS, and Islamic terrorism. San Bernardino was the most lethal terror attack on American soil since 9/11, and it came on the heels of a coordinated assault on Paris. There is no question that innocents were slaughtered in the name of Allah and in the way of jihad (meaning warfare against the enemies of Islam, in this case). But do the terrorists' actions actually reflect the broader religion of Islam? The answer to this question is more pressing than ever, as many Muslim refugees are still migrating to the West, seeking shelter from the violent ideologies of ISIS, Al-Qaida, and other radical Islamic groups. Setting aside speculations and competing voices, Qureshi explores the answers to difficult questions like: What is Islam, and is it a religion of peace or violence? Is there a clear definition and doctrine of jihad? How are we to understand jihad and radical expressions of Islam in relation to our Muslim neighbors and friends? Why is there such a surge of Islamist terrorism in the world today, and how should we respond? How does jihad compare with Old Testament calls to warfare? In Answering Jihad, bestselling author Nabeel Qureshi answers these urgent questions from the perspective of a former Muslim who is deeply concerned for both his Muslim family and his American homeland.

Answering Jihad

A man is awoken in his grave by the sound of trumpets on judgment day. As the first souls come before God

and Archangel Gabriel for the last judgment, the man soon discovers that judgement day is not quite how he imagined. God and Archangel Gabriel laugh at saints and sinners alike until they are so embarrassed that they flee \"up the sleeve of God\" where they are enlightened, given new bodies and a second chance. When God shakes them from his sleeve they land on a foreign planet and humanity is instructed to \"try again\" with their newfound understanding. This science-fiction fantasy take on a religious parable is written by the author of the science fiction classic 'The War of the Worlds', H.G. Wells. 'A Vision of Judgment' is a satirical short story that could easily be a precursor to comedy-drama 'The Good Place' or animated film 'Soul'. H.G. Wells (1866 – 1946) was a prolific writer and the author of more than 50 novels. In addition, we wrote more than 60 short stories, alongside various scientific papers. Many of his most famous works have been adapted for film and television, including 'The Time Machine,' starring Guy Pearce, 'War of the Worlds,' starring Tom Cruise, and 'The Invisible Man,' starring Elizabeth Moss. Because of his various works exploring futuristic themes, Wells is regarded as one of the 'Fathers of Science Fiction.'

Wings of Fire

A chilling exposé of corporate corruption and government cover-ups, this account of a nationwide child-trafficking and pedophilia ring in the United States tells a sordid tale of corruption in high places. The scandal originally surfaced during an investigation into Omaha, Nebraska's failed Franklin Federal Credit Union and took the author beyond the Midwest and ultimately to Washington, DC. Implicating businessmen, senators, major media corporations, the CIA, and even the venerable Boys Town organization, this extensively researched report includes firsthand interviews with key witnesses and explores a controversy that has received scant media attention.

Who is Allah? What does He ask of those who submit to His teachings? Pulitzer Prize-winner Jacke Miles gives us a deeply probing, revelatory portrait of the world's second largest, fastest-growing and perhaps most tragically misunderstood religion. In doing so, Miles illuminates what is unique about Allah, His teachings, and His resolutely merciful temperament, and he thereby reveals that which is false, distorted, or simply absent from the popular conception of the heart of Islam. So, too, does Miles uncover the spiritual and scriptural continuity of the Islamic tradition with those of Judaism and Christianity, and the deep affinities among the three by setting passages from the Hebrew Bible, the New Testament, and the Qur'an side by side. In the spirit of his two previous books, God and Christ, and with his characteristic sensitivity, perspicacity and prodigious command of the subject, Miles calls for us all to read another's scriptures with the same

understanding and accommodating eye that we turn upon our own.

God in the Qur'an

In much of the Muslim world, religion is the central foundation upon which family, community, morality, and identity are built. The inextricable embedment of religion in Muslim culture has forced a new generation of non-believing Muslims to face the heavy costs of abandoning their parents' religion: disowned by their families, marginalized from their communities, imprisoned, or even sentenced to death by their governments. Struggling to reconcile the Muslim society he was living in as a scientist and physician and the religion he was being raised in, Ali A. Rizvi eventually loses his faith. Discovering that he is not alone, he moves to North America and promises to use his new freedom of speech to represent the voices that are usually quashed before reaching the mainstream media—the Atheist Muslim. In *The Atheist Muslim*, we follow Rizvi as he finds himself caught between two narrative voices he cannot relate to: extreme Islam and anti-Muslim bigotry in a post-9/11 world. The *Atheist Muslim* recounts the journey that allows Rizvi to criticize Islam—as one should be able to criticize any set of ideas—without demonizing his entire people. Emotionally and intellectually compelling, his personal story outlines the challenges of modern Islam and the factors that could help lead it toward a substantive, progressive reformation.

Why Evolution is True

This book attempts to present the basic teachings of religion in the light of modern knowledge and in a manner consistent with modern scientific methods. After a thorough investigation of the subject, the writer has reached the conclusion that religious teachings are, academically, valid and as understandable and intellectually acceptable as any of the theories propounded by men of science.

A Gospel-Rich, Reproducible Model for Making Disciples as Jesus Intended Biblical discipleship emphasizes encouragement, repentance, and spiritual growth—essential parts of the Christian life. However, well-meaning believers often struggle to follow Jesus, unaware their views are too legalistic, licentious, or individualistic. How can churches and Christians develop a healthy, successful path to disciple-making? In this second edition of *Gospel-Centered Discipleship*, Jonathan Dodson presents an effective, Spirit-led model for sanctification. Reminding readers that real discipleship is imperfect yet transformational, Dodson encourages Christians to engage more authentically with others as they grow in faith. Drawing from his own failures and successes while following Jesus, Dodson defines discipleship, describes the heart of a disciple, and gives practical guidance for mentor and peer-based discipleship as Jesus intended. A Thousand Splendid Suns

A Look Inside the Sacred Book of One of the World's Fastest-Growing Religions What used to be an exotic religion of people halfway around the world is now the belief system of people living across the street. Through fair, contextual use of the Qur'an as the primary source text, apologist James R. White presents Islamic beliefs about Christ, salvation, the Trinity, the afterlife, and other important topics. White shows how the sacred text of Islam differs from the teachings of the Bible in order to help Christians engage in open, honest discussions with Muslims.

What Every Christian Needs to Know About the Qur'an

America's leading religious scholar and public intellectual introduces lay readers to the Qur'an with a measured, powerful reading of the ancient text Garry Wills has spent a lifetime thinking and writing about Christianity. In *What the Qur'an Meant*, Wills invites readers to join him as he embarks on a timely and necessary reconsideration of the Qur'an, leading us through perplexing passages with insight and erudition. What does the Qur'an actually say about veiling women? Does it justify religious war? There was a time when ordinary Americans did not have to know much about Islam. That is no longer the case. We blundered into the longest war in our history without knowing basic facts about the Islamic civilization with which we were dealing. We are constantly fed false information about Islam—claims that it is essentially a religion of violence, that its sacred book is a handbook for terrorists. There is no way to assess these claims unless we have at least some knowledge of the Qur'an. In this book Wills, as a non-Muslim with an open mind, reads the Qur'an with sympathy but with rigor, trying to discover why other non-Muslims—such as Pope Francis—find it an inspiring book, worthy to guide people down through the centuries. There are many traditions that add to and distort and blunt the actual words of the text. What Wills does resembles the work of art restorers who clean away accumulated layers of dust to find the original meaning. He compares the Qur'an with other sacred books, the Old Testament and the New Testament, to show many parallels between them. There are also parallel difficulties of interpretation, which call for patient exploration—and which offer some thrills of discovery. *What the Qur'an Meant* is the opening of a conversation on one of the world's most practiced religions.

What the Qur'an Meant

This is a research work on religion that claims to have originated in the heaven and brought down on earth through \"Revelation\" using a kind of invisible creatures called angels. The scriptures are also claimed as the words of the Lord. Affords have been made to assess this claim against a scientific background by insensibly going through the verses of the Quran and some Islamic Hadiths. The work combines a short history of recent Astrophysical development along with some extracts from English literature. The information contained in the book is in no way aimed at maligning any religion or persons connected to divinity.

How real is the DIVINE REVELATION?

Islam's Intellectual Suicide—and the Threat to Us All People are shocked and frightened by the behavior coming out the Islamic world—not only because it is violent, but also because it is seemingly inexplicable. While there are many answers to the question of “what went wrong” in the Muslim world, no one has decisively answered why it went wrong. Until now. In this eye-opening new book, foreign policy expert Robert R. Reilly uncovers the root of our contemporary crisis: a pivotal struggle waged within the Muslim world nearly a millennium ago. In a heated battle over the role of reason, the side of irrationality won. The deformed theology that resulted, Reilly reveals, produced the spiritual pathology of Islamism, and a deeply dysfunctional culture. Terrorism—from 9/11, to London, Madrid, and Mumbai, to the Christmas 2009 attempted airline bombing—is the most obvious manifestation of this crisis. But Reilly shows that the pathology extends much further. *The Closing of the Muslim Mind* solves such puzzles as: · why peace is so elusive in the Middle East · why the Arab world stands near the bottom of every measure of human development · why scientific inquiry is nearly dead in the Islamic world · why Spain translates more books in a single year than the entire Arab world has in the past thousand years · why some people in Saudi Arabia

still refuse to believe man has been to the moon · why Muslim media frequently present natural disasters like Hurricane Katrina as God's direct retribution Delving deeper than previous polemics and simplistic analyses, *The Closing of the Muslim Mind* provides the answers the West has so desperately needed in confronting the Islamist crisis.

Perhaps the best Quran English translation. It is clear, easy to read, and very faithful to the Arabic original. It closely follows the Arabic text, and often reminds the reader of the Arabic original. It uses today's English language, and today's English vocabulary, thus it is easy to read and understand. The flow is smooth, the sentence structure is simple, the meaning is clear. This Quran translation has no interpretations, no footnotes, and no explanations. It is a pure translation of the Quran, from Arabic to English, and it does not try to emphasize any school of thought. The text purely and accurately translates the Holy Quran, from Arabic, into contemporary English. It was translated by a Muslim, who saw firsthand the miracles inside the Quran. His native language is Arabic; his everyday language is American English. For 15 years, he studied the Quran. For many years, he translated speech between his mother and his wife. For a living, he develops quality software. This Quran translation is available in two editions. This edition (A) uses the word \"Allah\" to refer to the Creator. Edition (B) uses the word \"God\". Quran Sura 91. The Sun. ash-Shams. In the name of Allah, the Gracious, the Merciful. 1. By the sun and its radiance. 2. And the moon as it follows it. 3. And the day as it reveals it. 4. In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled *Kitab al-Jihad* (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work.

The extent of Islamicity, or what Islam demands, is measured to confirm that self-declared Muslim countries have not adopted foundational Islamic teachings for rule-compliant Muslim communities. Western countries, on the other hand, are demonstrated to have better implemented fundamental Islamic teachings for a thriving society.

Many analysts have worked on the problem of Islam's political aspects, but few have tackled Islam philosophically as a whole. Rebecca Bynum does that. She discusses Islam and its status in the modern world with a depth and precision missing in many modern accounts and sadly concludes that the great hope of secularizing the Muslim world is a pipe dream. It is much more likely, according to Bynum, that the secular world will be Islamized. Overall, however, her analysis is hopeful and provides an important ideological tool for dealing with Islam which is to reconsider its classification. Bynum maintains Islam's current status as a religion, along with all the other religions of the world, is in error. She refers to Islam as the duck-billed platypus of belief systems and proposes it should be classified accordingly; as the hybrid religio-socio-political belief system it is. She also reminds the Western world about what religion itself actually is, not the caricature modern analysts often mean when they refer to "religious fundamentalisms." Bynum has given policy-makers a powerful tool for dealing with Islam. Let us hope they understand, and grasp, and choose to make use of it.

Allah is Dead

Muhammad: a frank look at his influential (and violent) life and teachings In *The Truth about Muhammad*, New York Times bestselling author and Islam expert Robert Spencer offers an honest and telling portrait of the founder of Islam-perhaps the first such portrait in half a century-unbounded by fear and political correctness, unflinching, and willing to face the hard facts about Muhammad's life that continue to affect our world today. From Muhammad's first "revelation" from Allah (which filled him with terror that he was demonpossessed) to his deathbed (from which he called down curses upon Jews and Christians), it's all here-told with extensive documentation from the sources that Muslims themselves consider most reliable about Muhammad. Spencer details Muhammad's development from a preacher of hellfire and damnation into a political and military leader who expanded his rule by force of arms, promising his warriors luridly physical delights in Paradise if they were killed in his cause. He explains how the Qur'an's teaching on warfare against unbelievers developed-with constant war to establish the hegemony of Islamic law as the last stage. Spencer also gives the truth about Muhammad's convenient "revelations" justifying his own licentiousness; his joy in the brutal murders of his enemies; and above all, his clear marching orders to his followers to convert non-Muslims to Islam-or force them to live as inferiors under Islamic rule. In *The Truth about Muhammad*, you'll learn - The truth about Muhammad's multiple marriages (including one to a nine-year-old) - How Muhammad set legal standards that make it virtually impossible to prove rape in Islamic countries - How Muhammad's example justifies jihad and terrorism - The real "Satanic verses" incident (not the Salman Rushdie version) that remains a scandal to Muslims - How Muhammad's faulty knowledge of Judaism and Christianity has influenced Islamic theology--and colored Muslim relations with Jews and Christians to this day. Recognizing the true nature of Islam, Spencer argues, is essential for judging the prospects for largescale Islamic reform, the effective prosecution of the War on Terror, the democracy project in Afghanistan and Iraq, and immigration and border control to protect the United States from terrorism. All of which makes it crucial for every citizen (and policymaker) who loves freedom to read and ponder *The Truth about Muhammad*
