A comprehensive research and study guide to five of the poems of W.S. Merwin.

W. S. Merwin

This edition includes four plays and one libretto, covering more than twenty years of the dramatist's career: The Palace of Truth (1870), Sweethearts (1874), Princess Toto (1876), Engaged (1877) and Rosencrantz and Guildenstern (1891). The collection demonstrates that Gilbert was an original dramatist in his own right. The sophisticated irony of his plays challenged the conventions of the Victorian burlesque and sentimental comedy by demanding, and receiving, an intelligent response from the audience. George Rowell's useful and thorough introduction, which presents the theatrical background to Gilbert's development, also shows the dramatist's influence on Pinero, Wilde and Shaw. Gilbert's style combines a technique rarely realistic and stretching to fantasy with a tone apparently cynical and in fact deeply pessimistic. This odd pairing of fantasy and fatalism was recognized by his own and later generations as 'Gilbertian' and the term has been widely applied even outside the theatre.

Plays by W. S. Gilbert

To what extent is a great comic writer the product of his time? How far is he (or she) influenced by factors of personal psychology upbringing and environment? To what is the writing actually part of a long continuum in which there is continuity within change and change within continuity? The Progress of Fun considers principally the last of these areas, focussing on the case of W.S. Gilbert and challenging the frequently held view that he is pre-eminently a typical Victorian. This it does by tracing his roots back to Ancient Greek comedy and to the various comedic developments that have dominated Western Europe thereafter. Also included is a careful examination of the constraints and limitations that in various forms have long affected comedy-writing, and an evaluation of Gilbert's particular skills and legacy within the on-going process. The whole is a suitable prelude to a second volume (Pipes and Tabors) which will consider Genre in W.S. Gilbert, again relating it to comedic precedents and the universally timeless within the particular.

Ecopoetry of W. S. Merwin embarks on a journey into the poetic world of W. S. Merwin, a master of language whose profound relationship with nature transcends conventional boundaries. Merwin's poetry is not merely a collection of verses; it is a philosophical reflection on the human connection to the environment, deeply rooted in the principles of Deep Ecology. Through an analysis of selected works, this book not only delves into the literary dimensions of Merwin's environmental consciousness but also traces the evolution of his life—from a celebrated poet to an activist cultivating a personal sanctuary in the form of a palm forest in Hawaii.

Conversations with W. S. Merwin is the first collection of interviews with former United States Poet Laureate W. S. Merwin (b. 1927). Spanning almost six decades of conversations, the collection touches on such topics as Merwin's early influences (Robert Graves and Ezra Pound), his location within the twin poles of Walt Whitman and Henry David Thoreau, and his extraordinary work as a translator, as well as his decades-long interest in environmental conservation. Anticipating the current sustainability movement and the debates surrounding major and minor literatures, Merwin was, and still is, a visionary. He is among the most distinguished poets, translators, and thinkers in the United States. A major link between the period of literary modernism and its contemporary extensions, Merwin has been a force in American letters for many decades, and his translations from the Spanish, French, Italian, Japanese, and other languages have earned him unanimous praise and admiration. Merwin also wrote at the forefront of literature's environmental advocacy and early on articulated concerns about ecology and sustainability. Conversations with W. S. Merwin offers insight into the various dimensions of Merwin's thought by treating his interviews as a self-standing category in his oeuvre. More than casual narratives that interpret the occasional poem or relay an occasional experience, they afford literary and cultural historians a view into the larger throughlines of Merwin's thinking.

This book examines the lyric poetry of the late modernist W. S. Graham. By listening closely to his body of work, it exposes the capacity of a poem to describe itself being made in the mind of a reader. The study locates an idea of lyric self-consciousness not only at the level of ego, but as a process of form. Archival material – including worksheets, manuscripts and notebooks – is used to examine Graham's spatial

conception of verse in the context of his industrial background and his dialogue with artists. The book offers close readings of the adjacent poetics of William Empson and Veronica Forrest-Thomson, and concludes with a sustained analysis of Denise Riley's long-term engagement with Graham's poetry, which suggests how Graham's lyric experiments can be politicised.

In the first monograph on W. S. Merwin to appear since his death in 2019, Feng Dong focuses on the dialectical movement of desire and infinity that ensouls the poet's entire oeuvre. His analysis foregrounds what Merwin calls "the other side of despair," the opposite of humans' articulated personal and social agonies. Feng finds these presences in Merwin's evocations of what lingers on the edge of constantly updated socio-symbolic frameworks: surreal encounters, spiritual ecstasies, and abyssal freedoms. By examining Merwin's lifelong engagement with psychic fantasies, anonymous holiness, entities both natural and supernatural, and ghostly ancestors, Feng uncovers a precarious relation with the unarticulated, unrealized side of existence. Drawing on theories from Lacan, Žižek, Levinas, and Heidegger, *Desire and Infinity in W. S. Merwin's Poetry* reads a metaphysical possibility into the poet's work at the intersection between contemporary poetics, philosophy, and psychoanalysis.
