

Identical

Identical

Beneath their perfect family façade, twin sisters struggle alone with impossible circumstances and their own demons until they finally learn to fight for each other in this poignant tour de force from #1 New York Times bestselling author Ellen Hopkins. Sixteen-year-old Kaeleigh and Raeanne are identical down to the dimple. As daughters of a district court judge father and a politician mother, they are an all-American family...on the surface. Underneath run very deep and damaging secrets. What really happened in the car accident that Daddy caused? And why is Mom never home, always running far away to pursue some new dream? The girls themselves have become hopelessly divided over the years. Sick of losing Daddy's game of favorites, Raeanne turns to painkillers, alcohol, and sex to dull her pain her anger. Kaeleigh tries to be her father's perfect little flower, but being the misplaced focus of his sexual attention has her seeking control anywhere she can—even if it means cutting herself and unhealthy binge and purge eating. Secrets like the ones the twins are harboring are not meant to be kept—from each other or anyone else. Before long, it's obvious that neither sister can handle their problems alone, and one must step up to save the other, but the question is...who?

Identical

\n"Perfect on the outside, but behind the Normal Rockwell facades, each holds its secrets. Dark, untellable. Practically unbelievable.\n" -- IDENTICAL Kaeleigh and Raeanne are 16-year-old identical twins, the daughters of a district court judge father and politician mother running for US Congress. Everything on the surface seems fine, but underneath run very deep and damaging secrets. What really happened when the girls were 7 years old in that car accident that Daddy caused? And why is Mom never home, always running far away to pursue some new dream? Raeanne goes after painkillers, drugs, alcohol, and sex to dull her pain and anger. Kaeleigh always tries so hard to be the good girl -- her father's perfect little flower. But when the girls were 9, Daddy started to turn to his beloved Kaeleigh in ways a father never should and has been sexually abusing her for years. For Raeanne, she needs to numb the pain of not being Daddy's favorite; for Kaeleigh, she wants to do everything she can to feel something normal, even if it means cutting herself and vomiting after every binge. How Kaeleigh and Raeanne figure out just what it means to be whole again when their entire world has been torn to shreds is the guts and heart of this powerful, disturbing, and utterly remarkable book.

Identical

State Senator Paul Giannis is a candidate for Mayor of Kindle County. His identical twin brother Cass is newly released from prison, 25 years after pleading guilty to the murder of his girlfriend, Dita Kronon. When Evon Miller, an ex-FBI agent who is the head of security for the Kronon family business, and private investigator Tim Brodie begin a re-investigation of Dita's death, a complex web of murder, sex, and betrayal—as only Scott Turow could weave—dramatically unfolds...

Identical

Journalist Abigail Pogrebin is many things—wife, mother, New Yorker—but the one that has defined her most profoundly is “identical twin.” As children, she and her sister, Robin, were inseparable. But when Robin began to pull away as an adult, Abigail was left to wonder not only why, but also about the very nature of twinship. What does it mean to have a mirror image? How can you be unique when somebody shares your

DNA? In *One and the Same*, Abigail sets off on a quest to understand how genetics shape us, crisscrossing the country to explore the varied relationships between twins, which range from passionate to bitterly resentful. She speaks to the experts and tries to answer the question parents ask most—is it better to encourage their separateness or closeness? And she paints a riveting portrait of twin life, yielding fascinating truths about how we become who we are.

Identical Bidding in Public Procurement

The 2nd edition of Michael E. Platt, M.D.'s ground-breaking health book, *The Miracle of Bio-Identical Hormones, How I Lost My...* fatigue, hot flashes, ADHD, ADD, fibromyalgia, PMS, osteoporosis, weight, sexual dysfunction, anger, migraines., provides many answers to common medical problems, and explains how balancing your hormones can contribute to your well-being and your long-term health. Outstanding praise has been received for this intelligently written book by wellness colleagues, book reviewers, and patients from around the world for its new ideas and unique perspective on hormones and preventive medicine. Dr. Platt explores how natural (non-synthetic) bio-identical hormones can have the power to heal many maladies often considered incurable. This is the most important health book published this year, or any year for that matter. It's an easy, fascinating, highly-informative, even life-changing read, states Barbara Morris, compounding pharmacist and author of *Put Old On Hold*. The book is also considered an excellent primer for compounding pharmacists and the wellness community.

Identical Bidding in Public Procurement

Reviews and evaluates psychological studies of separately raised identical twins and suggests which aspects of human experience are largely shaped by one's heredity.

One and the Same

From #1 New York Times bestselling author Ellen Hopkins comes a new heartbreakingly tender middle grade novel in verse about the bonds between two brothers and the love they share. Twelve-year-old Trace Reynolds has always looked up to his brother, mostly because Will, who's five years older, has never looked down on him. It was Will who taught Trace to ride a bike, would watch sports on TV with him, and cheer him on at Little League. But when Will was knocked out cold during a football game, resulting in a brain injury--everything changed. Now, seventeen months later, their family is still living under the weight of "the incident," that left Will with a facial tic, depression, and an anger he cannot always control, culminating in their parents' divorce. Afraid of further fracturing his family, Trace begins to cover for Will who, struggling with addiction to pain medication, becomes someone Trace doesn't recognize. But when the brother he loves so much becomes more and more withdrawn, and escalates to stealing money and ditching school, Trace realizes some secrets cannot be kept if we ever hope to heal.

The Miracle of Bio-identical Hormones

When thirteen-year-old Charlie compromises her values to help Lauren, one of the popular girls, cheat on a test, her identical twin sister, Sammie, is inadvertently pulled into the mess.

Identical Twins Reared Apart

When Charlie compromises her values to help one of the popular girls cheat on a test, Sammie is inadvertently pulled into the mess. Written from Charlie's point of view, this story will let readers experience the lengths that wanting to be popular in middle school can take you to, the conflict it can cause, and the tough moral stands a girl sometimes has to take.

What About Will

Identical Twins explores the unique status of twinship and how it can affect personal and familial relationships with siblings, romantic partners, and friends. Drawing from the rich qualitative data from over one hundred interviews, Joleen Loucks Greenwood shares the benefits and challenges associated with the experience of being an identical twin and discusses ways in which all social relationships are positively and negatively impacted by this dynamic. This book is a must-read for family scholars, such as family sociologists who study family and sibling relationships as well as psychologists who focus on personal and social relationships, as well as anyone interested in the study of identical twins.

Twice as Nice

Vols. for 1911-13 contain the Proceedings of the Helminothological Society of Washington, ISSN 0018-0120, 1st-15th meeting.

Two-Faced #2

As we grow older, many of us experience a tremendous amount of frustration because something inside us doesn't work the way it used to. Nutrition experts tell us to eat certain kinds of food some claim free radicals are the sole cause of aging, and that the only way to longevity is through antioxidant supplements. Fitness gurus tell us the only answer is exercise. When we do exercise or go on a diet, we feel a little better but not much, and not the way we felt when we were younger. We exercise or diet twice as much to stay at the same place, and even that is a challenge. The story has been the same throughout history, so we wonder if we should continue to fight the battle, or if we should just learn to grow old gracefully. Improvements in medical technology and new knowledge about exercise, nutrition, and rest are all part of the solution to remaining young and healthy. However, we continue to see some people who do not take particularly good care of themselves, yet are aging more gently and we know instinctively that parts of the anti-aging puzzle must still be missing.

Identical Twins

In this riveting and startling companion to "Impulse," northern Nevada teenagers Cara, Kendra, Sean, and Andre, tell in their own voices of their very different paths toward perfection and how their goals change when tragedy strikes.

Cline Electric Manufacturing Company V. Kohler

This monograph is an important study of those Lie algebras which satisfy identical relations. It also deals with some of the applications of the theory. All principal results in the area are covered with the exception of those on Engel Lie algebras. The book contains basic information on Lie algebras, the varieties of Lie algebras in a general setting and the finite basis problem. An account is given of recent results on the Lie structure of associative PI algebras. The theory of identities in finite Lie algebras is also developed. In addition it contains applications to Group Theory, including some recent results on Burnside's problems.

Devonian

Three female friends face midlife crises in a no-holds-barred exploration of sex, marriage, and the fragility of life.

Supreme Court

Kristina Georgia Snow is the perfect daughter: a gifted student, quiet, never any trouble. But on a trip to visit

her absentee father, Kristina disappears and Bree takes her place. Bree is a total opposite to Kristina - she's fearless. Through a boy she meets, Bree is introduced to the monster: Crank. And what begins as a wild, ecstatic ride turns into a struggle through hell for her mind, her soul and, ultimately, her life.

The Expositor

From the bestselling author of *Crank*, the story of three kids whose lives collide at a mental hospital after each attempts suicide. Sometimes you don't wake up. But if you happen to, you know things will never be the same. Three lives, three different paths to the same destination: Aspen Springs, a psychiatric hospital for those who have attempted the ultimate act—suicide. Vanessa is beautiful and smart, but her secrets keep her answering the call of the blade. Tony, after suffering a painful childhood, can only find peace through pills. And Conner, outwardly, has the perfect life. But dig a little deeper and find a boy who is in constant battle with his parents, his life, himself. In one instant each of these young people decided enough was enough. They grabbed the blade, the bottle, the gun—and tried to end it all. Now they have a second chance, and just maybe, with each other's help, they can find their way to a better life—but only if they're strong and can fight the demons that brought them here in the first place.

Science

Collects five stories about three girls and two boys who question how they feel about themselves while learning about love and sexuality.
