## John Singer Sargent Watercolors

John Singer Sargent's approach to watercolour was unconventional. Disregarding late-nineteenth-century aesthetic standards that called for carefully delineated and composed landscapes filled with transparent washes, his confidently bold, dense strokes and loosely defined forms startled critics and fellow practitioners alike. One reviewer in England, where Sargent spent much of his adult life, called his work swagger watercolours. For Sargent, however, the watercolours were not so much about swagger as about a new way of thinking. In watercolour as opposed to oils his vision became more personal and his works more interconnected. Presenting nearly 100 works of art, this book is the first major publication of Sargent's watercolours in twenty years. Each chapter highlights a different subject or theme that attracted the artists' attention during his travels through Europe and the Middle East: sunlight on stone, figures reclining on grass, patterns of light and shadow. Insightful essays by the world's leading experts enhance this book and introduce readers to the full sweep of Sargent's accomplishments in the medium, in works that delight the eye as well as challenge our understanding of this prodigiously gifted artist.

## **Victorian Landscape Watercolors**

English landscape watercolor painting, a perfect marriage of genre and medium, entered a lively period of experimentation in style and content during the second half of the nineteenth century, with rich and diverse results. Through all the changes of style and technique and all the debates over the appropriate use of the medium, it was watercolor's ability to convey the timeless truth and reality of the natural world that mattered to artists, critics, and audiences. British watercolors of the Victorian period continued to observe an essential humility before nature; they remain fresh and compellingly immediate because they derived in the first place from the artists' heartfelt communion with the elements of nature. Victorian Landscape Watercolors begins with a consideration of the continuing influence of the great generation who earlier in the century, during the extraordinary parallel rise of watercolor and landscape painting, had established the landscape watercolor as a major British contribution to the arts. The second chapter examines the role of the landscape watercolor in the aesthetic thought of John Ruskin, whose critical voice played a dominant role in shaping that art. The third chapter looks at the place of landscape within the watercolor societies and its development as it appeared in their annual exhibitions. The final chapter deals with the tug of new and old, foreign and native in the later Victorian period. The book also features 126 watercolors, from public and private collections in America and England, all reproduced in full color and accompanied by individual commentaries. Among the 76 artists represented are David Cox, Sr. and Jr., Walter Crane, William Holman Hunt, Edward Lear, Samuel Palmer, James Mallord William Turner, James McNeill Whistler, and Ruskin himself, along with dozens of lesser-known masters of the medium. Victorian Landscape Watercolors is published in conjunction with the first exhibition to survey this period of this particularly British contribution to the arts; the exhibition, organized by the Yale Center for British Art in New Haven, Connecticut, will also be seen at the Cleveland Museum of Art and in Birmingham, England.

## **Great British Watercolors**

Paul Mellon (1907--1999) assembled one of the world's greatest collections of British drawings and watercolors. This catalogue celebrating the centenary of Mellon's birth features eighty-eight outstanding watercolors from the fifty thousand works of art on paper with which he endowed the Yale Center for British Art. The selection spans

the emergence of watercolor painting in the mid-18th century to its apogee in the mid-19th. These works highlight the diversity of British watercolors, showcasing both landscape and figurative works by some of the principal artists working in the medium, including Thomas Gainsborough, Thomas Rowlandson, William Blake, and J. M.W. Turner.
