

Kindertransport

Into the arms of strangers : stories of the Kindertransport (Motion picture), 2000

A timely study of the effects of family separation on child refugees, using newly discovered archival sources from the WWII era: "Highly recommended." —Choice The Kindertransport—an organized effort to extract children living under the threat of Nazism—lives in the popular memory as well as in literature as a straightforward act of rescue and salvation, but these celebratory accounts leave little room for a deeper, more complex analysis. This volume reveals that in fact many children experienced difficulties with settlement: they were treated inconsistently by refugee agencies, their parents had complicated reasons for giving them up, and their caregivers had a variety of motives for taking them in. Against the grain of many other narratives, Jennifer Craig-Norton emphasizes the use of newly discovered archival sources, which include the correspondence of refugee agencies, carers, Kinder and their parents, and juxtaposes this material with testimonial accounts to show readers a more nuanced and complete picture of the Kindertransport. In an era in which the family separation of refugees has commanded considerable attention, this book is a timely exploration of the effects of family separation as it was experienced by child refugees in the age of fascism.

Ten Thousand Children

Who will look after me...and why can't we all go together? Kurt Fuchel asked his father these questions, as the young boy prepared to embark on a journey to England...alone. Fuchel was one of ten thousand children who made this journey shortly before World War II began. In 1938, Jews searched for a way out of Germany, but anti-Jewish laws and nations unwilling to accept fleeing refugees made escape difficult or impossible. England's effort to save the children effort came to be known as the Kindertransport, and author Ann Byers discusses the heroes who organized the transports and the children who were saved from the Holocaust.

Saving Children From the Holocaust

In the months leading up to the outbreak of World War Two, Britain rushed to evacuate nearly 10,000 Jewish children from the Nazi occupied territories. Through the unprecedented cooperation of religious and governmental organizations, the Kindertransport spared thousands of Jewish children from the terror of the Third Reich and provided them with host families in Britain. "Children's Exodus" offers an in-depth look at the people and politics behind the various chains of rescue as well as the personal narratives of the children

who left everything behind in the hope of finding safety. Drawing on unpublished interviews, journals, and articles, Vera K. Fast examines the religious and political tensions that emerged throughout the migration and at times threatened to bring operations to a halt. *"Children's Exodus"* captures the life-affirming stories of child refugees with vivid detail and examines the motivations - religious or otherwise - of the people that orchestrated one of the greatest rescue missions of all time.

The Kindertransport to Britain 1938/39

The remarkable story of a six-year-old girl who, in the winter of 1938, is uprooted overnight from her rabbinic family in Vienna, and sent on the Kindertransport to England. In particular, describes the time spent in Shefford's Jewish Secondary School.

Throw Your Feet Over Your Shoulders

This important book tells the story of how ten thousand Jewish children were rescued out of Nazi Europe just before the outbreak of World War 2. They were saved by the Kindertransport — a rescue mission that

transported the children (or Kinder) from Nazi-ruled countries to safety in Britain. The book includes real-life accounts of the children and is illustrated with archival photographs, paintings of pre-war Nazi Germany by artist, Hans Jackson, and original art by the Kinder commemorating their rescue.

Rescuing the Children

The grocer, the teacher, the soldier, the Quaker... Mike Levy shines a light on the courageous deeds of twenty-two women and men who transformed the lives of the Kindertransport and other refugees. In 1938, when the Government refused to act and those around them turned a blind eye, these heroic individuals took it upon themselves to orchestrate one of the greatest lifesaving missions the world has ever seen. Until now the compelling accounts of these extraordinary rescue missions have remained untold. Mike Levy is a researcher for the US Holocaust Memorial Museum and the Association for Jewish Refugees, an educator with the Holocaust Education Trust and Chair of The Harwich Kindertransport Memorial and Learning Trust. In support of Safe Passage £1 from the Sale of this book will be donated to Safe Passage and used to help child refugees find legal routes to sanctuary. Get the Children Out!

A young readers' edition of an important and inspiring true story of hope and survival during World War II. Fourteen-year-old Lisa Jura was a musical prodigy who hoped to become a concert pianist. But when Hitler's armies advanced on pre-war Vienna, Lisa's parents were forced to make a difficult decision. Able to secure passage for only one of their three daughters through the Kindertransport, they chose to send gifted Lisa to London for safety. As she yearned to be reunited with her family while she lived in a home for refugee children on Willesden Lane, Lisa's music became a beacon of hope. A memoir of courage and the power of music to uplift the human spirit, this compelling tribute to one special young woman and the lives she touched will both educate and inspire young readers.

The Children of Willesden Lane

The first volume of this series described the beliefs of the Christadelphians, and told the stories of ten of the children who had left their parents and come to live with Christadelphians via the Kindertransport. This second volume does the same. Just as the first, ten of these child survivors, and their families, give their testimony. Unlike the first volume, however, some of these survivors did not live with Christadelphian families - living instead in Elpis Lodge, the hostel sponsored by Christadelphians in Birmingham. Because of that, this second volume includes further details and primary sources relating to the hostel, in addition to recounting their childhood, flight from Germany, and new life in England. These are their stories.

Part of the Family - Volume 2

With a foreword by Cynthia Ozick, this semiautobiographical novel of a Jewish girl forced away from home in the face of Nazi persecution is an extraordinary tale of fortitude and survival. On a December night in 1938, a ten-year-old girl named Lore is put on the Kindertransport, a train carrying hundreds of Jewish children out of Austria to safety from Hitler's increasingly alarming oppression. Temporarily housed at the Dover Court Camp on England's east coast, Lore will find herself living in other people's houses for the next seven years: the Orthodox Levines, the Hoopers, the working-class Grimsleys, and the wealthy Miss Douglas and Mrs. Dillon. Charged with the task of asking "the English people" to get her parents out of Austria, Lore discovers in herself an impassioned writer. In letters to potential sponsors, she details the horrors happening back at home; in those to her parents, she notes the mannerisms and reactions of the new families around her as she valiantly tries to master their language. And the closer the world comes to a new war, the more resolute Lore becomes to survive. As powerful now as when it was first released fifty years ago, *Other People's Houses* is a poignant tale about the creation of a new life in the face of hopelessness and fear—a

hallmark of the postwar immigration experience.

Kindertransport

The present volume is the result of an interdisciplinary oral history research project, which was carried out at the Centre for German-Jewish Studies at the University of Sussex. It focuses on the Kindertransport, the British rescue operation saving 10,000 predominantly German-Jewish children from Nazi Germany, and is based on in-depth case studies of five child survivors of the Holocaust. Looking at human development over the life cycle as mediated by intervening trauma was at the heart of the project, which examined the making and breaking of a child's close ties to significant others, processes of identity formation under acculturative stress as well as the creation and recall of traumatic memories. The study is thus one of the few in the field of attachment research which sheds light on the lifelong influence which early attachment has on coping with massive cumulative trauma. The former child refugees' narratives are enriched by letters, diaries, or articles written by them and their (host) families as well as by interviews conducted with family members and friends. Consequently, we can look at individual lives and collective destinies from more than one perspective as we are provided with rich, multi-layered accounts of people's whole-life trajectories. While each Holocaust survivor's developmental story is unique, it is, however, linked to the others' by the common experience of negotiating an identity between two countries, cultures, and religions against the background of unparalleled political upheavals, and as such also sheds light on, and offers ways out of, the traumata suffered in present-day contexts of enforced migration and displacement.

Trauma and Attachment in the Kindertransport Context

Between December 1938 and September 1939, nearly ten thousand refugee children from Central Europe, mostly Jewish, found refuge from Nazism in Great Britain. This was known as the Kindertransport movement, in which the children entered as "transmigrants," planning to return to Europe once the Nazis lost power. In practice, most of the kinder, as they called themselves, remained in Britain, eventually becoming citizens. This book charts the history of the Kindertransport movement, focusing on the dynamics that developed between the British government, the child refugee organizations, the Jewish community in Great Britain, the general British population, and the refugee children. After an analysis of the decision to allow the children entry and the machinery of rescue established to facilitate its implementation, the book follows the young refugees from their European homes to their resettlement in Britain either with foster families or in refugee hostels. Evacuated from the cities with hundreds of thousands of British children, they soon found themselves in the countryside with new foster families, who often had no idea how to deal with refugee children barely able to understand English. Members of particular refugee children's groups receive special attention: participants in the Youth Aliyah movement, who immigrated to the United States during the war to reunite with their families; those designated as "Friendly Enemy Aliens" at the war's outbreak, who were later deported to Australia and Canada; and Orthodox refugee children, who faced unique challenges attempting to maintain religious observance when placed with Gentile foster families who at times even attempted to convert them. Based on archival sources and follow-up interviews with refugee children both forty and seventy years after their flight to Britain, this book gives a unique perspective into the political, bureaucratic, and human aspects of the Kindertransport scheme prior to and during World War II.

Postcards to a Little Boy

Never Look Back

In 1939, on the eve of Hitler's invasion of Poland, seven-year-old Edith Milton (then Edith Cohn) and her sister Ruth left Germany by way of the Kindertransport, the program which gave some 10,000 Jewish children refuge in England. The two were given shelter by a jovial, upper-class British foster family with whom they lived for the next seven years. Edith chronicles these transformative experiences of exile and good fortune in *The Tiger in the Attic*, a touching memoir of growing up as an outsider in a strange land. In this illuminating chronicle, Edith describes how she struggled to fit in and to conquer self-doubts about her German identity. Her realistic portrayal of the seemingly mundane yet historically momentous details of daily life during World War II slowly reveals itself as a hopeful story about the kindness and generosity of strangers. She paints an account rich with colorful characters and intense relationships, uncanny close calls and unnerving bouts of luck that led to survival. Edith's journey between cultures continues with her final passage to America—yet another chapter in her life that required adjustment to a new world—allowing her, as she narrates it here, to visit her past as an exile all over again. *The Tiger in the Attic* is a literary gem from a skilled fiction writer, the story of a thoughtful and observant child growing up against the backdrop of the most dangerous and decisive moment in modern European history. Offering a unique perspective on Holocaust studies, this book is both an exceptional and universal story of a young German-Jewish girl caught between worlds. “Adjectives like ‘audacious’ and ‘eloquent,’ ‘enchanted’ and ‘exceptional’ require rationing. . . . But what if the book demands these terms and more? Such is the case with *The Tiger in the Attic*, Edith Milton’s marvelous memoir of her childhood.”—Kerry Fried, *Newsday* “Milton is brilliant at the small stroke . . . as well as broader ones.”—Alana Newhouse, *New York Times Book Review*

Saving Children From the Holocaust

Presents accounts of persons who were brought to Great Britain as unaccompanied children in 1939 from the Greater Reich (Germany, Austria, Czechoslovakia). Concentrating mostly on their lives in England and in North America, many of them also relate their experiences under the Nazi regime. Includes facsimiles of documents concerning these \"children's transports\" and their reception in Great Britain.

The Tiger in the Attic

The first transnational study of the memory of the Kindertransport and the first to explore how it is represented in museums, memorials, and commemorations. The Kindertransport, the rescue of ca. 10,000 Jewish children from the Nazi sphere of control and influence before the Second World War, has often been framed as a \"British story.\" This book recognizes that even though most of the \"Kinder\" were initially brought to the UK and many stayed, it was more than that. It therefore compares British memory of the Kindertransport to that of other host nations (the US, Canada, Australia, and New Zealand). It is the first book to ask how the Kindertransport is remembered both in the countries of origin, particularly Germany, and in the host nations, as well as the first to analyze how it is represented in museums, memorials, and commemorations. Seeing memory of the Kindertransport in the host nations and in Germany as significantly different, the study argues that the different national memory discourses around the Nazi persecution of Jews shape the respective countries' images of the Kindertransport, and that those images in turn shape the discourses - especially in Britain. Yet while national memory frameworks remain crucial to how the

Kindertransport is remembered, the book also documents the increasing significance of transnational memory trends that link the host nations with each other and with the countries from which the children originated.

I Came Alone

Sibert Honor author Deborah Hopkinson illuminates the true stories of Jewish children who fled Nazi Germany, risking everything to escape to safety on the Kindertransport. An NCTE Orbis Pictus recommended book and a Sydney Taylor Book Award Notable Title. Scholastic Focus is the premier home of thoroughly researched, beautifully written, and thoughtfully designed works of narrative nonfiction aimed at middle-grade and young adult readers. These books help readers learn about the world in which they live and develop their critical thinking skills so that they may become dynamic citizens who are able to analyze and understand our past, participate in essential discussions about our present, and work to grow and build our future. Ruth David was growing up in a small village in Germany when Adolf Hitler rose to power in the 1930s. Under the Nazi Party, Jewish families like Ruth's experienced rising anti-Semitic restrictions and attacks. Just going to school became dangerous. By November 1938, anti-Semitism erupted into Kristallnacht, the Night of Broken Glass, and unleashed a wave of violence and forced arrests. Days later, desperate volunteers sprang into action to organize the Kindertransport, a rescue effort to bring Jewish children to England. Young people like Ruth David had to say good-bye to their families, unsure if they'd ever be reunited. Miles from home, the Kindertransport refugees entered unrecognizable lives, where food, clothes -- and, for many of them, language and religion -- were startlingly new. Meanwhile, the onset of war and the Holocaust visited unimaginable horrors on loved ones left behind. Somehow, these rescued children had to learn to look forward, to hope. Through the moving and often heart-wrenching personal accounts of Kindertransport survivors, critically acclaimed and award-winning author Deborah Hopkinson paints the timely and devastating story of how the rise of Hitler and the Nazis tore apart the lives of so many families and what they were forced to give up in order to save these children.

WALL STREET JOURNAL BOOK OF THE MONTH \ "This is the incredible World War II saga of the German-Jewish commandos who fought in Britain's most secretive special-forces unit—but whose story has gone untold until now.\ " —Wall Street Journal "Brilliantly researched, utterly gripping history: the first full account of a remarkable group of Jewish refugees—a top-secret band of brothers—who waged war on Hitler."—Alex Kershaw, New York Times best-selling author of *The Longest Winter* and *The Liberator* The incredible World War II saga of the German-Jewish commandos who fought in Britain's most secretive special-forces unit—but whose story has gone untold until now June 1942. The shadow of the Third Reich has fallen across the European continent. In desperation, Winston Churchill and his chief of staff form an unusual plan: a new commando unit made up of Jewish refugees who have escaped to Britain. The resulting volunteers are a motley group of intellectuals, artists, and athletes, most from Germany and Austria. Many have been interned as enemy aliens, and have lost their families, their homes—their whole worlds. They will stop at nothing to defeat the Nazis. Trained in counterintelligence and advanced combat, this top secret unit becomes known as X Troop. Some simply call them a suicide squad. Drawing on extensive original research, including interviews with the last surviving members, Leah Garrett follows this unique band of brothers from Germany to England and back again, with stops at British internment camps, the beaches of Normandy, the battlefields of Italy and Holland, and the hellscape of Terezin concentration camp—the scene of one of the

most dramatic, untold rescues of the war. For the first time, X Troop tells the astonishing story of these secret shock troops and their devastating blows against the Nazis. "Garrett's detective work is stunning, and her storytelling is masterful. This is an original account of Jewish rescue, resistance, and revenge."—Wendy Lower, author of *The Ravine* and National Book Award finalist *Hitler's Furies*

In this brave and original work, Federica Clementi focuses on the mother-daughter bond as depicted in six works by women who experienced the Holocaust, sometimes with their mothers, sometimes not. The daughters' memoirs, which record the "all-too-human" qualities of those who were persecuted and murdered by the Nazis, show that the Holocaust cannot be used to neatly segregate lives into the categories of before and after. Clementi's discussions of differences in social status, along with the persistence of antisemitism and patriarchal structures, support this point strongly, demonstrating the tenacity of trauma—individual, familial, and collective—among Jews in twentieth-century Europe.

Walter Kohn, 1998 Nobel Laureate in Chemistry and discoverer of the Density Functional Theory (DFT), died in 2016 at the grand age of 93. This book is the first ever biography of Kohn, who led a remarkable life and scientific career, not least the fact that his DFT theory has emerged as the underlying computational method for molecular simulation used throughout the physical and life sciences. Taking us on a compelling journey, Sir David Clary traces Kohn's early life in Vienna and his dramatic escape from the Nazis on the Kindertransport to England in 1939, followed by Kohn's internment as an 'enemy alien' and his transportation to Canada in 1940. His subsequent scientific career is discussed in detail, including his remarkable sabbatical in France when he discovered DFT, and his enduring efforts on peace initiatives and reduction of nuclear proliferation. An extraordinary story of a theoretical physicist winning the Nobel Prize in Chemistry, Walter Kohn is a sparkling chronicle of one of the great scientists of the 20th century who forever changed the way contemporary science is done.

In postcolonial theory we have now reached a new stage in the succession of key concepts. After the celebrations of hybridity in the work of Homi Bhabha and Gayatri Spivak, it is now the concept of diaspora that has sparked animated debates among postcolonial critics. This collection intervenes in the current discussion about the 'new' diaspora by placing the rise of diaspora within the politics of multiculturalism and its supersession by a politics of difference and cultural-rights theory. The essays present recent developments in Jewish negotiations of diasporic tradition and experience, discussing the reinterpretation of concepts of the 'old' diaspora in late twentieth-century British and American Jewish literature. The second part of the volume comprises theoretical and critical essays on the South Asian diaspora and on multicultural settings between Australia, Africa, the Caribbean and North America. The South Asian and Caribbean diasporas are compared to the Jewish prototype and contrasted with the Turkish diaspora in Germany. All essays deal with literary reflections on, and thematizations of, the diasporic predicament.
